Embargo Repeal Expected To Be Final Action

Embargo Repeal Action Is Widely Heralded In Britain And France

CONVOY SYSTEM BEING PLANNED

Intensification Of German Submarine Campaign Expected To Ensue

(International News Service)

When Great Britain fought Imperial Russia in the Crimean war, England's most popular song began:

"We've got the men, we've got the ships,

"We've got the money, too."

Today, as the European war entered its third month, the words were chanted again in appropriate echo to congressional action in voting repeal of the American arms embargo.

France and Britain looked gleefully towards the loosing of a great supply of airplanes and other equipment the moment President Roosevelt puts his signature to the revised neutrality legislation.

And Britain, it became evident at once, is ready to meet all the requirements of the "cash and carry" provisions of the prospective American law.

Ready To Carry Goods

In spite of the U-boat menace, her vast merchant fleet is ready to start a well-convoyed ferry system across the Atlantic.

And almost at the very moment when the house of representatives was voting 243 to 181 for repeal of the arms embargo, it was learned in London that Britain plans to take care of the money part of the question by floating an immense domestic war loan.

At first, it was understood, the British loan will aim at 1,000,000,000 pounds, or nearly $5,000,000,000 at par.

Deep excavations have been made on Shenango street, near West Washington street, for putting in a large manhole and conduit for the wires of the Bell Telephone company, and several feet of cobble stones were taken out. Five Hundred Planes Ready For Shipment

By LEON W. SHLOSS
International News Service Staff Correspondent

WASHINGTON, Nov. 3—Five hundred warplanes, built in the United States for Great Britain and France, are ready for shipment the minute repeal of the existing United States arms embargo becomes law, government sources disclosed today.

The planes, chiefly bombers, have been rushed to completion since President Roosevelt imposed the embargo against Europe's warring nations on September 6 and in recent weeks have been shipped to east coast and other ports ready for transportation to Europe in British and French ships.

Exactly where the planes are stored has been kept secret, but it was learned they have been moving across country from Pacific coast and other manufacturing centers by rail and water. In addition, some have been flown to points in eastern Canada for shipment.

Ports which have received the bulk of the aircraft for trans-shipment were said to be Boston, New York, Philadelphia, Baltimore, Galveston, Houston, Port Arthur and Mogbile.

The 500 warplanes represent the unfilled portion of British and French orders for 900 ships placed some time before the embargo was invoked. About 400 of the total order were delivered before September 6.

France Is Enthused Over Embargo Repeal

PARIS, Nov. 3—Until they were silenced by a powerful French counter-bombardment, German guns today resumed heavy and systematic shelling of an unidentified French village about ten miles northwest of Sarreguemines.

French army lines and settlements were pounded with six-inch shells, in an area near the district of Forbach, which suffered a heavy bombardment yesterday.

The German troop concentrations today were reported behind the lines north of Sarreguemines, indicating the possibility that a large German raid is in the making.

More than on the war itself, however, attention was centered in France today on the enthusiastically

HELSINGFORS, Nov. 3.—A Soviet Russian ultimatum to Finland is expected to result from the latter's refusal to transfer Hangoe Islands to the U.S.S.R., according to reports in Helsingfors today.

The situation is considered very grave. Finland's counter-proposals are not expected to be published.

The delegation in Moscow has been instructed to refuse the Hangoe Island demand flatly. Today's article in the Moscow newspaper Pravda was broadcast twice to Finland by the Russian radio, leading to grave fears in Helsingfors that a peaceful settlement may not now be possible.

Demands Being Made On Bulgaria By Russia Now?

(International News Service)

LONDON, Nov. 3.—Russian demands for bases in foreign countries, which brought Lithuanian, Latvian and Estonian capitulation, now have been extended to Bulgaria, the London Daily Express reported today in a dispatch from Bucharest, Rumania.

Right to establish garrisons at the Black sea ports of Bourgas, Varna and Anhialo were asked by Moscow, it was asserted.

If the reported Russian move succeeds, the Soviets would have a foothold near the Bosporus, Turkey's exit from the Black sea.

The Daily Express' story closely followed the revelation in high neutral quarters in London that Russia is supporting an underground communist movement in Bulgaria, with the hope of overthrowing the government of King Boris.

While Nazi officialdom withheld formal comment until President Roosevelt has signed the repeal measure, the conviction was voiced that America has further jeopardized her neutrality.

Grave War Risks

"Grave war risks are entailed in wholesale delivery on arms and planes," one spokesman said. Authentic quarters laid stress on Mrs. Roosevelt's reported remark that ocean boundaries are not sufficient to keep the United States out of war.

President Will Put Neutrality Law Into Effect

By EDWARD B. LOCKETT

Mr. Roosevelt, in commenting on house action yesterday in putting virtually final touches on the neutrality bill, authorized this direct quotation:

EMBARGO REPEAL BILL BEING RUSHED

Final Steps In Arms Embargo Repeal Move Expected In Short Order

By EDWARD B. LOCKETT
International News Service Staff Correspondent

WASHINGTON, Nov. 3.—A congress bent an adjournment tomorrow night today prepared to conclude legislative action on the administration's bill substituting cash-and-carry sale of both munitions and non-military commodities for the existing neutrality act's arms embargo.

Conference committees of the senate and house were scheduled to meet today to whip the bill into final form. Conference approval of the measure was expected during the afternoon, and senate action was to follow immediately. Tomorrow, the house is expected to put its approval stamp on the legislation, and President Roosevelt will sign it without delay.

Both branches of congress have approved the vital provision repealing the arms embargo to belligerents, and substituting therefore, a section which will permit American manufacturers to sell both munitions and other commodities to nations at war if they take title to their purchases on American soil, pay cash, and haul them away in foreign boats.

By that time, it was felt, stocks may be increased to a point which will permit allowances greater than the four ounces of each product intended for each person per week.

I know but few of the telephone girls, yet I talk to a lot in a year, and now and then they may think me rude for the manner I speak, I fear. Domination By Few Nations Seen

Prediction Is Made By Babson

Noted Statistician Makes Address In Boston On World Situation

BRITISH EMPIRE MAY DECREASE

(International News Service)

BOSTON, Nov. 3.—Roger W. Babson foresees a world under domination of four or five powerful nations, possibly including the United States, if nature is allowed to pursue unhampered its own natural course.

The noted statistician in an address Thursday before the Boston Chamber of Commerce also predicted inevitable collapse of the far-flung British empire but said England itself would continue as a great sea and air unit among the nations of the world.

"There is no longical excuse for so many nations," he said. "There should be only four or five possessing armaments and a dominating voice in world affairs. The balance must expect to become protectorates, if not integral parts of stronger nations.

Dominating Nations

"If nature takes its natural course, these dominating nations will be Russia, Germany, England, Japan or China and, possibly, the United States."

Concerning Great Britain's future, he said:

"The British empire, as now constituted, is bound to collapse. The world owes much to the British empire but it has outlived its usefulness. England, however, will survive and emerge stronger than ever as a great sea and air power."

Babson expressed skepticism as to whether current hostilities actually constitute a "world war" and said that should such a conflict develop "Russia will dictate the best terms."

a major role in repeal of the embargo They cited in particular the case of the British freighter Coulmore to whose aid American coast guard cutters and planes were sent after receipt of an apparently erroneous report that she was being attacked by a submarine.

"This was another British maneuver cooked up at the right moment to exert moral pressure on congress and trick it into repealing the embargo" the Press said.

Propaganda minister Dr. Paul Joseph Goebbels newspaper labelled the incident as "a dirty new British swindle" and a "stupid bluff to mislead Americans." The Berlin newspaper Nachtausgabe charged in a subhead that a British warship, "violated the Pan-American neutrality zone." This was a reference to the British cruiser despatch, which tried to seize the German freighter Emmy Friedrich in the Caribbean. The ship was scuttled by her crew.

Scoff At New Reports

Meanwhile, official quarters threw cold water on reports of Italo-German differences, stating that Hans Georg Von Mackensen, German ambassador to Rome who returned to Berlin recently for consultations would go back to his post tomorrow.

There was nothing in Berlin to substantiate a London report that Premier Hermann Wilhelm Goering plans to go to Rome. Germany's ambassador to Moscow, Count Friedrich Werner Von Schulenberg, will return to Moscow on Monday.

Military headquarters emphasized the lack of activity on the western front, stating it was confined to minor artillery and scouting movements. Constant German reinforcements are being sent to the front, and the morale of troops kept up by frequent shifting between pillboxes and outpost service.

"Three weeks behind the front, three weeks in pillboxes, three weeks in outpost service and three weeks leave" is the order of the day, according to the high command. Reichsfuehrer Adolf Hitler meanwhile is occupied daily with routine conferences.

Hunters are finding that their dogs, especially the older ones, tire easily when taken out to chase rabbits. The dogs have been tied up and the sudden liberation for the chase, is too much for them. One rather old dog which a hunter had out yesterday, kept going until he was so completely fagged out that he had to be carried to a car.

* * *

Pa Newc notes that there are quite a number of boys and young men who are interested in building toy airplanes. It is an outlet for their energy and inventive genius, and a valuable experience in the handling of tools. It is too bad that all of our boys cannot have some such hobby. Too many grow up without any kind of systematic work. This is true generally of boys not brought up on the farm. Farm boys can always find chores to keep them busy, but the city boy is at a distinct disadvantage in this respect. There is little that he can do, because there is not the varied activities there are on the farm. That is why the city boy should be encouraged in airplane, or any other kind of work that will help to lay the foundation for his future success.

Pa Newc is in receipt of a letter asking if it is necessary to show a tax receipt in order to get a hunting license. It is not. The game law requires only that the applicant for a hunter's license establish his identity. This can be done by a bank book, letters, lodge card, driver's license, or other papers. A tax receipt would no doubt be an acceptable form of identification, but it is not necessary.

In looking over the statistics on registration compiled by the permanent registration bureau, one finds some interesting information. The largest Republican precinct is the seventh of the second ward, which has 609 registered Republicans. The largest Democratic precinct is the third of the eighth ward, with 448, while the first and second precincts of this ward are also second and third in order with 388 and 367 in number. The fourth precinct of Wayne township is the smallest precinct in the county, having but 68 voters registered in it, while the largest precinct is the first of the second ward in Ellwood City, with 877 voters. While the number of male voters outnumbers the number of female voters in the county, 24, 132 to 18, 275, yet in the second ward there are more female Republican voters in seven of the ten precincts of that ward, the difference being the most pronounced in the fourth precinct, where there are 56 more Republican men than women. There are also more female Democrats than males, so it cannot be because their husbands are Democrats.

CONGRESS BENT ON ADJOURNING LATE SATURDAY

(Continued From Page One)

demand that congress remain in session after neutrality legislation is disposed of, and act on other measures. The leadership in both houses claimed ample votes to prevent such a move, and adjournment of the special session is expected tomorrow.

A few minor changes in the shipping sections, exempting certain belligerent-owned possessions in the Atlantic and Pacific from the drastic cash-and-carry provisions, were slated in the conference, but no major changes. Senator Connally (D) Texas, and others demanded insertion of a preamble specifically declaring that this country surrenders none of its rights under international law, but the leaders declared this was not necessary, and adoption of such a clause was regarded as unlikely.

Senate Foreign Relations Committee Chairman Pittman (D) Nevada, called the conference committees into session today, in an effort to work the legislation into its final form.

One Knotty Problem

One knotty point to be decided in the conference dealt with the length of time ships may be on the ocean unaffected by the new law after it goes into effect. Under the bill as drafted at present and approved by both houses of congress, this limit is set at seven days. Some shipping companies demanded that this be extended to ten days.

Final congressional action on vital phases of the neutrality bill came in the house, with a 243-181 approval of the arms embargo repeal coming in the form of a rejection of proposals to write an embargo into the law. The house on June 30 wrote an embargo into the neutrality bill then before it.

Earlier, the senate approved embargo repeal 63 to 30, ending nearly four weeks of debate over the issue in the special session of congress. The issue has been before congress since last spring, when President Roosevelt demanded embargo repeal as the most effective method of maintaining American neutrality and peace.

POPPY DAY WILL BE OBSERVED IN CITY TOMORROW

here, and it is hoped that every patriotic citizen will take part in the observance of this occasion.

Symbol Of Sacrifice

It is also the symbol of the supreme sacrifice, she states, and stands for the highest type of patriotism we can conceive. Wearing this little flower awakens in people's heart a deeper conception of one's duty to his country. It gives an inspiration to serve in peace with the same spirit of patriotic devotion that inspired those who died among the poppies of Flanders.

Students of the high school will distribute poppies on the streets here all day Saturday, receiving in exchange for them, any contribution that the citizen desires to make toward the welfare work of the Legion Auxiliary.

These poppies are made by disabled veterans in various hospitals over the country. The men who make these poppies receive little or no compensation from the government and this enables them to earn a small subsistence. Men with families are given preference in this work.

said two German planes were shot down in the sector below the Belgian frontier.)

Most of the infantry clashes were caused by numerous French patrols, sent out by the high command to investigate the sudden urge of German activity in the Saar region, which included shelling of the Forbach area.

The Germans also showed worry over recent British activity farther north, and it was for this reason that planes were sent well into French territory for observation.

ALLIES EXPECT VAST SUPPLIES FROM AMERICA

first steps towards floating the loan when he asks for parliamentary approval in the house of commons.

American manufacturers were understood to be ready to dispatch almost at once, on allied carriers, the remaining 500 of the 900 planes for which Britain and France already have contracted. The allies are expected to place orders for between 5500 and 8000 more planes at once, and in the next few weeks buy supplies in America costing around $1,000,000,000.

Intensify Sub Campaign

German reaction to Washington developments, of course, was just opposite to that of the allies.

Intensification of submarine activities over the trans-Atlantic sea paths was expected to be the immediate result, with daring sea raiders ranging far afiled in efforts to sink as many arms cargoes as possible.

For this reason, it was believed Britain will try to fly American-built flying boats across the ocean via Canada.

Official German quarters would not comment on America's change in her neutrality policy, but the restraint which the Reich press has hitherto maintained with respect to Mr. Roosevelt was abandoned. The president was accused of following the paths of war taken by Woodrow Wilson.

In England these headlines welcomed the house's action:

Daily Express—"Roosevelt Winning—Arms For Us By Monday."

Daily Mirror—"United States Does It."

Daily Mail—"United States Lifts Arms Embargo—Anger in Berlin—War Supplies Freed for Allies."

News Chronicle—"United States Finally Approves Arms Ban Repeal—Roosevelt Wins Fight to Sell Munitions to Allies."

Giuseppe Bastianini, new Italian ambassador to London and a former under-secretary in the foreign office at Rome, inadvertently let the cat out of the bag in an "off the record" talk which was nevertheless published in London.

"Fascism is absolutely incompatible with communism," he said, only a few hours before Premier Mussolini shook up his cabinet and ousted or shifted openly pro-Nazi elements.

Diplomatic circles declare that Germany is blocked in Rumania by Josef Stalin's insistence that Soviet Russia should dominate the Black sea. It is pointed out also that the Turkish mutual assistance pact with Great Britain and France is a dominant factor.

BELGIUM'S NEW ANTI-TANK DEFENSES

LATEST tip on anti-tank defenses comes from Belgium, where steel gates mounted on rollers are being installed along frontiers on which danger of invasion is greatest. The principle of the steel gates differs from that of other barriers against tanks in that they are movable and are intended to stall attacking tanks by enmeshing them, making them easy prey for anti-tank guns.

Here is an instance suggesting that the German's whirlwind drive across Poland wasn't all in their favor. The Belgians developed their anti-tank defenses after noting the success of the Nazi tanks in rolling across the Polish plains. If the Nazis violate Belgian neutrality in an attempt to strike at France, difficulty that their tanks may encounter will be the result of their highly mechanized attack on the Poles.

Twenty-five years ago little Belgium was the first victim of Prussia's armed might. Her new anti-tank defenses and the other bulwarks she has erected to stop Hitler's military juggernaut are the fruits of bitter, first-hand experience with ruthlessness.

TIME TO PREPARE FOR SANE CHRISTMAS SHOPPING

Christmas is called the most beautiful holiday of the year, one that glows with poetic imagination and lovely sentiment. And yet it has its incongruities and contradictions, and it needs some remaking, if it is to be reasonable and helpful to us all.

The most undesirable feature of it has always been the grand rush to buy gifts and send them off during about 10 days previous to the holiday. People for years have been shown how unbusinesslike it is, how it makes the cost of distributing Christmas gifts higher, how it imposes a heavy burden on store people and post office employes, how many of these folks are all tired out when the grand scrimmage ends.

And yet people continue in this ancient habit, and no doubt we shall see this year the same old rush. But the agitation for early buying of gifts has accomplished something, and a good many people do so as far as they can.

The reason commonly given for this final rush is that people haven't the money ahead, and they have to wait until just before the holiday before they are able to buy the things they want. Still, there are plenty of people for whom that excuse does not apply.

PEACE AND FAITH

The material strength of Russia is an unknown factor in this war. Its enormous population, its reserves of man power, its rich natural resources and its vast geographical extent are there for all to see. How effective this strength could be made in the event of a long war is an interesting speculation. The Russian contribution to the last war, prior to the 1917 collapse, was a great one, but difficulties of transportation, equipment, munitions and command presented serious problems.

It might be, in the event of a war of exhaustion, that a still neutral Russia—in the modern meaning of the term—and a neutral United States would emerge as the two dominant survivors. Our own strength, we know. It was demonstrated in 1917-1918. This time, if there is one national conviction that is unanimous, it is that the United States should not again become involved as a belligerent. Our power is prodigious, but this time it is a power Americans seek to hold in reserve against the time when sane counsel and the principles of democratic freedom will be needed in a disordered world.

The world is not going back to what it was prior to September 1. That egg has been scrambled. If the people of some of the warring powers can get past their governments, Europe might return to peace. If not, Russia may liquidate Europe. Our business is here. We may be about all that is left of a civilization where individual initiative has a fair chance.

WHAT WAR DOES TO PEOPLE'S RIGHTS

This is "grievance week" in Great Britain. The rising tide of complaints from business against needless and oppressive restrictions under the excuse of the war is expected to make the government take notice.

Business and industry are suffering from "controlitis." The press is crying: "Control the controls." Bungling bureaucracy is causing heavy losses to trade.

The people are saying they can stand any necessary hardships. But the countless daily irritations and annoyances are getting on their nerves.

"DORA," or the Defense of the Realm Act, continued in force long after the World War ended. It was feared for a time that the rigid regimentation would be made permanent.

Now the British are getting a dose of official regulation that is even more drastic and bitter. The "Ministry of Little Information," as they call it, was the first straw. Then came the stupid censorship with its long list of blunders.

Publication of our government's "M-Plan" showed what might happen to popular liberties if our country should ever again go to war. A virtual dictatorship might be enthroned. This would be only part of the terrible price we all would have to pay.

It is to be remembered that even a war to resist and overthrow tyranny and aggression from without inevitably puts a heavy handicap upon liberty of the individual at home. From every viewpoint, war is the curse of humanity.

Those "vast supplies" Stalin is supposed to be sending to Hitler may turn out to be a cargo of trouble.

Adolph Hitler probably knows by this time that imbibing that Russian vodka can leave quite a hangover.

The City of Flint had in its cargo feathers among other things. But even they were no light matter to the Nazis.

The Parent Problem

By Garry C. Myers, Ph. D.

CONSISTENCY IN SCHOOL SUCCESS

Over a period of weeks or months we can usually predict about how a child will behave and how he will succeed at school. Yet there are some children whose conduct and learning progress are not easily predictable.

"Dear Dr. Myers," writes a mother., "I have a little girl nine years old, who has poor habits of concentration. She doesn't want to stay with any kind of work or play except for a few minutes.

"Her teachers tell me that at one time she will do excellent work and then next day very poor work. Will you please give me some suggestions on how to handle her?"

Emotional Conflicts

I answered her that this child probably has many emotional conflicts. No doubt she varies widely from day to day in her state of hopefulness or discouragement, happiness or unhappiness elations or depression. It would be well to study her in relation to the other members of the family, especially to other children there and to have a general medical check on her.

It would be safe to do all possible to create for her a severe and comfortable family atmosphere in which she feels she is loved as much as others there. She should not grow over-weary or excited.

Hold Her To Routines

It is best to hold her rigidly to routines and enforce home regulation in relation to them. Before she is asked or told to do something, her mother should make sure first she has her attention. Then it may be desirable to have her repeat the request or command before she sets out to execute it.

It would be good to read aloud to her at home. But the moment she moved about or grew inattentive I would close the book and put it away. I also would assume that she will concentrate when she is interested and succeeding. When she began a play enterprise I would encourage her to see it through to finish the job.

Now, a word about the child who has been doing well at school over a period of one or several years but suddenly slumps into an indifferent school laggard. We find him all along the line—in the early grades, high school, college. Such things don't just happen: there's a reason We should try to find it instead of exploding emotionally, scolding and nagging at the child. Although there may be a health reason, and we should check for it, most often the case is emotional, frequently too deeply hidden for the parent alone to unearth.

The World AND THE Mud Puddles

AGAIN THE OSTRICH

How simple it seems would have been the road to safety and prosperity in this Nation were it not for the fact that the Nation is overburdened with Pacifists.

At the close of the last great War, this country was thoroughly equipped with very excellent training camps, but they were just thrown into discard. The Nation had not learned its lesson as yet. Rich beyond the dreams of avarice, this Nation is the envy of the rest of the world. Of all the Nations on the face of the earth, this Nation ought to be thoroughly prepared for war—not a war of aggression, but a war of defense.

Universal military training would not only insure an Army that could be called to the colors over night, but it would be a wonderful place in which the young men of the Nation could be thrown together—the rich and poor alike, and learn the lesson which the young men of this Nation do not know—the lesson of discipline; the lesson to obey orders. The old Persians were a wonderful people. They had universal training and the young Persians were taught, as the Greeks often reiterated, "to ride, to shoot and to speak the truth." They also learned how to obey.

I believe if this Nation had a system of universal military training, we would have less racketeering. We would have had no WPA or PWA. We would have had mighty little reason for any monetary Relief measures. If there is anything that has been done in the last few years to undermine the courage and self-reliance of young America, it has been the Relief measures put through Congress and the legislatures of the various states. Soldiers in an Army could be used upon any project upon which the Federal Government and the government of the several states would agree.

When the CCC Camps were organized the Pacifists arose in Holy Horror at the idea of Army officers being placed in charge of these Camps. They wanted no discipline; they wanted nothing that savored of soldiering, and as a consequence, the Reserve Officers in charge of these camps had to "beat the Devil around the Stump" to maintain discipline in the Camps. They have done a mighty fine piece of work, but how much better work could have been accomplished if these Camps had been organized upon strictly Army lines. Well, it was not done. As it is, we have an insignificant Regular Army, and no end of untrained men, most of whom probably could not load an army rifle on a bet, much less operate a machine gun.

This Nation does not want War, but the easiest way for this Nation to become a prey to a European conqueror is to continue upon its undiciplined way.

Remember, if Great Britain should be wiped off the seas, it would be "curtains" for these United States.

HINTS AND DINTS

Sun sets tonight 4:55. Sun rises tomorrow 6:34.

At a convention of the Chiropody Society in Pittsburgh it was declared that open toe slippers are the cause of foot troubles. It was also stated that the best heel for women's shoes are no heel at all. Those chaps were arguing against their own business.

A fellow up our way never goes to a funeral unless some poor fellow dies who is in danger of not having a respectable crowd.

Fur coats are being dated, or rather have been and a lot of the gals when they look at the date fear they are out of date.

THE NICER TOUCH

A man came to the back door of a fashionable home asking for something to eat

"Send him out some bread and potatoes," the mistress of the house told the cook.

"But begging your pardon, ma'am," said the cook "The man seems to have seen better days."

"Oh, very well then, take a napkins along, too."

The fellow with the longest reach doesn't always get first the things men covet most.

The World's Fair in New York next year will be dedicated to more fun and less culture. Culture don't seem to draw the crowd like fun and rough stuff.

In the winter time the police gallop around telling the bums to get out of town. The Office Grouch adds:

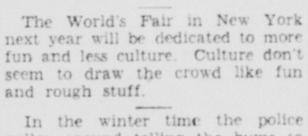
"In the spring the travel agents do the same thing, only they tell it to everyone who has the price of a vacation ticket to somewhere else."

"Hail, Hail, the Gang's All Here" may only mean two if the company's congenial.

After an actress gets married five or six times she gets out of the notion.

"When I was a little boy," sweetly piped the hard-boiled sergeant, "I had a set of wooden soldiers. One day I lost those soldiers and I cried very much. But my mother said, Never mind, Johnny, some day you will get your wooden soldiers back." And, believe me, you bunch of wooden-headed dumbbells, that day has come!"

People have a way of asking one how he feels and then get bored at the conversation.



The little things make life. The famous winner, reviewing a parade in his honor is miserable because his corns hurt.

No dobt there is not a dictator in Europe who would not like to get his hands on the United States. We have something to fight for in this country worth while.

The champion corn husker of Pennsylvania shucked 41 ears a minute. If you think that isn't a lot of corn, try to husk that many ears in an hour.

READY TO PRACTICE

The politician running for reelection once had practiced as a veterinary surgeon.

During a campaign debate an opponent referred to him as a jackass doctor.

"Are you really a curer of jackasses?" asked the opponent.

"Why do you ask?" queried the politician. "Aren't you feeling well?"

At least ten million, otherwise normal people are ardent followers of the stars. Great muscular giants like Jack Dempsey, Tony Galento and Joe Louis wouldn't walk under a ladder for a thousand dollars (Galento might) Black cats are regarded as the ultimate in bad luck. Three on a match is one of our most popular superstitions. The superstition arose during the boer war. British soldiers smoking cigarettes at night suddenly realized that almost every third man was instantly killed. Investigation later disclosed that the boers used the first smokers as rang finders and let the third one have it in the neck. Needless to say smoking at night became exceedingly unpopular among the Tommiess. Chorus girls believe that whistling in a dressing room is bad luck. The last line of a play is never spoken during rehearsals. Tossing a hat on a bed is likewise considered very bad luck. Almost as unlucky as betting on one of Bing Crosby's horses. It is really bad luck to be run over with a steam roller, hit by a truck or to back into a lighted blow torch.

An Ohio woman wants a divorce because her husband did not speak to her for days except to cuss her. No doubt she could make him cuss, anyhow.

Often people get caught behind a long string of cars on the road and they think it is a funeral or a truck and when they find out what it is they find it just some slow driver and he may be using only one arm to drive.

Remember away back when the boys and girls in the country on hallowe'en helped make sauer kraut instead of galloping around over the country upsetting small buildings?

There are people who don't have to let the police take their finger prints. They leave them on everything they touch.

"Yes," replied the physician.

Nothing seems to make people so nervous as to be called upon to make public speeches at banquets or meetings and I am being constantly asked how this stage fright may best be cured. I always suggest that the nervous speaker begin his piece with the wittiest anecdote that he can glean from among his acquaintances. As soon as his audience begins to laugh at this, he will regain his composure and the remainder of his remarks will be delivered with ease. But he must not laugh at his own jokes. Truly humorous people appear serious when making others laugh.

Reader's Questions Answered

Dear Miss Markel: What is the proper procedure for a hostess entering a hotel dining room with guests? Should she precede or follow them? Should she suggest what to order or should the guests make their own choice? How should chairs be left after dinner?—B. L.

Answer: When entering a hotel dining room, the hostess should precede her guests (if there is a group of them) or walk alongside of them (if there are but one or two.) She should lead the way to the table she has reserved. But in her own home the hostess should follow her guests into the dining room. The guests should make their own choice of food, but the hostess should do the ordering. She might make suggestions, such as "Will you begin with oysters or clams? That chicken Maryland sounds tempting." The hostess may, through the head waiter, order the entire meal in advance and have it served, just as she would at home without consulting her guests. In some respects, this is more satisfactory. Chairs should be left as they are after the diners have risen from them.

Congressman Dies Faces Struggle
Has Incurred Wrath Of White House
Release Of Names Is Embarassing

By CHARLES P. STEWART
(Central Press Columnist)

WASHINGTON, Nov. 3.—Representative Martin Dies of Texas, chief investigator of un-American activities in this country, seems to be in for a mean fight with the Roosevelt administration over his release of the names of 563 government employes on the membership roll or the correspondence list of the American League for Peace and Democracy, which Dies says is of Communistic origin.

Presumably what particularly stung the White House was the fact that several prominent New Dealers were on the scroll.

Of course it doesn't follow that all or any members of the league are Communists. The outfit has a commendable enough name. Any peace lover or good Democrat (or Republican, for that matter) might have joined it without knowing that it's communistically backed. IF it is; its chairman, Dr. Harry F. Ward says it isn't.

As for its mailing list, nobody can help being on THAT. As a Washington correspondent, I get its releases myself, though I'm not a government employe. But I couldn't, if I tried, prevent the organization from sending its literature to me.

Was It Sordid?

I can understand, though, that it's try to a government worker to be included in such a roster, with no chance to explain himself. A lot of people are bound to take it for granted that he's a Red, when maybe he's no more roseate than plenty of us. I imagine that plenty of good Americans are for "peace and democracy" who aren't a bit Stalinistic.

President Roosevelt charged that the publication of that list was pretty "sordid." Asked what he meant by "sordid," he said the term spoke for itself. So you can furnish your own interpretation. I'd guess that he meant Representative Dies was trying to make political capital in his personal interest, regardless of injustice to other folk.

Dies likewise reminded Attorney General Murphy that we have a law now which requires foreign propagandists in the United States, under heavy penalties, to register with the state department. He called on Murphy to go after them.

Murphy said "o. k.," he would.

However, he added that he wasn't going on any "witch hunts"—quite plainly implying that he considers Dies a "witch-hunter."

These utterances by President Roosevelt and Attorney General Murphy obviously have aroused Representative Dies' ire, and the answer he's made to the president and to the attorney general, in interviews and by radio, have been aplenty.

Slightly Cuckoo

Earl Browder's case enters into the equation.

Earl, an out-and-out Communist, has admitted before the Dies committee that he traveled in Europe with faked passports.

If so, it implies perjury.

That's indictable. Earl was indicted.

So far, no criticism.

But he wanted to make bond, pending trial.

A woman appeared, to offer bail for him. She put it up in cash, and he was released.

Yet thereafter she was called before the grand jury to tell WHY she did it.

Now, what business was that of the grand jury?

I can comprehend why the Dies committee might have subpenaed her to explain herself, on national principles.

But how was it any of a grand jury's affair?

The Great Game Of Politics

By FRANK R. KENT
Copyright, 1939, by The Baltimore Sun

It's Against The Law

WASHINGTON, Nov. 3.

EVERY time the Dies Committee does anything that hurts either the Administration or the Communists, it comes in for a storm of denunciation and criticism from the professional "liberals", both political and journalistic. Some of this may be deserved; some is not.

CERTAINLY, Mr. Dies is neither the most polished, the most skillful, the fairest nor the ablest investigator that could be imagined. But certainly he compares favorbly with Mr. Hugo Black, the great snooping senator, later elevated to the Supreme Bench, and to some others who, in the past, have conducted congressional investigations. That he should be unpopular with the New Dealers was inevitable, as, want them or not, the Communist individuals and organizations which he has been engaged in pillorying, have been—and still are—supporters of the New Deal and the President, with strong CIO and Administration affiliations and a good many positions in both.

UNDER the circumstances it is natural that the New Dealers, from the President down, should exhibit great distaste for Mr Dies, and, so far as they can, not only refuse him cooperation but disparage his efforts. Upon two separate occasions Mr. Roosevelt has gone out of his way to do that, and his friends in the House have led the fight to choke the committee off. Another attempt to do this will be made in January, when an extension of its life must be asked. The most recent of the President's efforts to nullify the committee's results was to call 'sordid" its publication of the list of some 500 members of an allegedly communistic-dominated organization who hold Government jobs in Washington.

IT is easy to see why this was unpleasant, but not why it was sordid. The committee did not accuse the members of the organizations who hold Government jobs of being Communists, though some of them are. All it did was to state that these are the names of Government employes who still belong to an organization which was exposed as a Communist "front" more than a year ago. It may be that most of these people are innocent saps with nothing sinister about them. Nevertheless, it seems worth letting the public know how many such there are in the Federal service and who they are. Moreover, there seems no particularly good reason why anyone who joins an order or organization should object to being known as a member.

IT IS easy to understand why the New Deal politicians should think this "sordid". It is less easy to grasp the point of view of the able and admirable Miss Dorothy Thompson, who protests the expose on the ground that it is a "witch hunt", and argues that it is all wrong to oust men and women from Government jobs "just because they happen to be Communists". Aside from the fact that most people will feel that neither individual liberty nor any other theory justifies putting or keeping in Federal offices persons affiliated with a party dominated by a foreign power, which seeks to substitute its system of government for our system—aside from that, it is against the law.

IN THE Hatch Act passed last summer, there is an unequivocal provi-

MISCHIEF-BREWING

His little hands are sturdy and his little legs are stout
He's giving proof already that he soon will walk about
And there's something in his laughter and the twinkle in his eye
Which betoken roguish mischief we must suffer by and by.

I've watched him eyeing strangely every opened closet door
And I'll swear that he was thinking: "There's a place I'll soon explore!"
And I'll swear that he was thinking: "Just as soon as I can crawl
There's a dish upon the table that is going to have a fall."

You can see it in his manner for it's just as plain as day
There's all sorts of glorious trouble due to come his mother's way.
And as soon as he is able—and it won't be very long
He'll come bursting from his play pen though we build it twice as strong.

Now he's bouncing and he's kicking in a most convincing way.
It is mischief that is brewing and he wants to start today.
And I chuckle as I watch him for much sooner than we think
On her finest table cover he is going to spill the ink.

The Great Game Of Politics

(Continued From Page Four)

sion which says: "It shall be unlawful for any person employed in any capacity by any agency of the Federal Government, to have membership in any political party or organization which advocates the overthrow of our constitutional form of government in the United States." Under this act it would appear mandatory for the Attorney General to investigate the Dies list and eliminate those who are actual Communists. Thus, it seems, that in contending that Communists holding Government positions should be retained therein, Miss Thompson, among other things, advocates ignoring a law recently passed by an overwhelming vote.

ACTUALY, the Dies Committee not only did not charge that all the Governmental-employe members of the Communistic organizations were Communists but it did not urge that the Communists be ousted. It merely made public the list and left it to the Attorney General to act. The President calls it "sordid"; the Attorney General gives no indication of acting, and Miss Thompson thinks there is no reason Communists should not hold Government jobs. Regardless of the law, not many will agree with her in that, nor with the notion that the Dies Committee, in publishing this list, is having a "witch hunt". And it is not "red baiting", either.

ON the contrary, most people will agree that, despite its deficiencies and mistakes, two things the Dies Committee has done entitle it to the thanks of the country. One is making it known that more than 500 Government employes, innocently or not, have affiliated themselves with an organization conceived and dominated by Communistic influences. The other is exposure of the Moscow industry of forging American passports and securing admission from Mr. Browder, official head of the American Communist party, and now under indictment, that he had used a forged passport in traveling between this country and Russia. If the committee has done nothing else, developing these two things is a sufficient justification.

DICTATORSHIPS ARE ASSAILED

"Cunning Organizations And Organized Thuggery" Says Herbert Hoover

(International News Service)

NEW YORK, Nov. 3.—"Cunning organizations and organized thuggery" are the foundations of the dictatorships of Russia and Germany, according to Herbert Hoover.

"And if you examine them, you will find they are fed largely by products of the pavement and frustrated youth," he said at a Y. M. C. A. dinner opening a $1,500,000 youth program campaign.

"The dictator countries have no trouble taking care of youth," said Alfred E. Smith. "They just slap them into the army and then burden the rest of the population down to the earth with taxes to support them."

Harrington Warns Of Scant Lessening Of Relief Needs

W. P. A. Chief Cites Reasons

Says Recent Gains In Employment Will Not Mean Relief Situation Met

HUGE NEED FOR JOBS IN NATION

(International News Service)

CHICAGO, Nov. 3.—Works Progress Administration Commissioner Col. F. C. Harrington declared Thursday that recent gains in employment should not be interpreted to mean that there has been or will be any lessening of relief needs.

Addressing the American Municipal Association, the W.P.A. chief asserted that any belief an American business boom would result from the European war was a mistaken one, he said:

"During the first few weeks of the war we heard many extravagant assertions as to the gains which American business would make because of it. But since then more sober voices have been raised, and I think the American people are beginning to realize that we shall suffer business losses as well as make business gains on account of the international situation.

Expect Too Much

"But I am afraid that many are still expecting too much from the war, especially in the matter of new employment."

Col. Harrington said he did not wish to mimimize any possibilities of increased private employment but, he said, "I should like to point out that the total number of workers for whom new jobs have been provided by this war boom still falls short of the number of workers who were dismissed from W.P.A. employment this summer under the 18-months clause."

The 18-months clause referred to by Harrington was contained in the new relief act passed by the last congress. In discussing the new act, Harrington said he was in general agreement with all its provisions except the 18-months clause, which ordered the dismissal of all W.P.A. workers who had been continuously on the rolls 18 months or more.

Dismissed 700,000

Under that clause of the act, Harrington recalled, the W.P.A. "had to dismiss over 700,000 workers."

"We were obliged to discharge these workers without any regard to the availability of private employment for them," he added. "It was presumably the belief that they would find private employment, but we have reason to believe that private jobs were not available for the great bulk of them. Many of them are persons 45 years of age and over, whom private industry refuses to employ when younger workers are available."

Harrington appealed to his listeners to meet their "responsibility" in cooperating with the Public Works Administration in their municipalities, for, he said, work relief would have to be provided by local and national government "for years to come."

Concluding, Harrington said he did not believe the W.P.A. as operated was the final answer to federal participation in the solution of unemployment. He pointed out that in the past four years the program, which he said "is in a continual state of evolution," had been greatly improved. He pledged himself to work for still greater improvement and efficiency in the project.

Postal Workers To Get Holiday On November 23

Date Is Designated For Thanksgiving Holiday In New Castle

By ARTHUR C. WIMER
(Special Washington Correspondent, New Castle News)

WASHINGTON, D. C., Nov. 3.—New Castle post office workers will get a full holiday November 23, the date fixed by President Roosevelt as Thanksgiving Day. They will work, however November 30, the date being observed by half the states.

The post office department found a problem tossed in its lap when only half the states decided to follow the president and observe the 23rd. This being a national holiday, ordinarily all post offices throughout the country would close. But the 24 states deciding to adhere to the old date of November 30 insisted they wanted mail service on the 23rd and not on the last Thursday of the month.

So after much pondering, the post office department decided there just couldn't be any national holiday for postal workers this month. The department ruled that in states celebrating the 23rd postal workers would loaf that day, and that in states observing the 30th post offices would be closed on that date Now everybody's happy!

KEEP PRICES DOWN

(International News Service)

PHILADELPHIA. — Despite a jump in the price of many commodities, Philadelphia restaurant patrons have noticed no increase in the size of their meal checks because of the European war. Restaurant and hotel dining room managers have determined to keep their prices at present levels, a survey of leading establisnments in the central city area showed.

TOO EFFICIENT

A man dashed into the fire station. He was tremendously excited, and burst out with: "I'm sorry to interrupt you all, but my wife has disappeared again."

One of the firemen looked up.

"That's too bad," he sympathized, "but why tell us firemen? Why not notify the police?

The intruder shook his head.

"I don't dare tell the police," he exclaimed. "I told them the last time she disappeared—and they went out and found her!"

November Business Is Best Since 1928 Is Statement By Babson

By ROGER W. BABSON
(Copyright, 1939, Publishers Financial Bureau)

BABSON PARK, Mass., Nov. 3.—Business is cantering along at 25 per cent above a year ago. With the exception of 1928, this month is opening at the highest level for any November in history! Yet, good stocks are actually cheaper than they were last November! Stock prices are an excellent barometer of sentiment. The fact they do not rise in the face of this good news means that business men are worried. They are fearful that Washington will skim the profits through taxes. Congress, however, will not raise taxes in an election year.

BABSON

Beware Of Higher Prices

Even though there is no need to worry about Washington and taxes, business men should be concerned about commodity prices. Both the big labor parties have had their annual conventions recently. The spotlight at each was trained directly on living costs under war conditions. If prices are increased too much we may easily kill "the goose which lays the golden eggs". I belong 100 per cent to the school which teaches that prosperity comes from free markets for raw materials, manufactured goods, labor wages, and money rates. Anything which artificially holds up prices, wages or loans retards prosperity and adds to unemployment.

Once it was believed that appendicitis could be cured by putting on hot-water bottles; but they did not work. Then the doctors tried ice bags; but they were not effective. The inflammation was still there. It was finally found that appendipendix is removed. Some day the people of North America will learn that only as the restrictions on wages, hours and banking are removed will people go back to work.

Canada Especially Vulnerable

I do not visualize a run-away commodity market like that in the World War when the manufacturers were completely in the saddle. Yet, all signs point to higher prices. Only a few days ago, the Fair Labor Standards Act set up a new wage and hour schedule for industrial and office workers. The minimum wage went up from 25 to 30 cents an hour, and the maximum work week dropped from 44 to 42 hours. This is sure to increase prices and thereby result in more people out of jobs.

Any business man who fails to watch prices and costs carefully will be licked if the war is a long one. Employers and farmers will have no alternative but to hike their prices. Business men do not stand a chance of bucking trade associations and labor unions. Organized groups are in a position to take advantage of war conditions. They may skim the cream off profits, leaving the public "holding the bag". If there is any statesmanship in Washington, however, an attempt will be made to prevent this. A post-war panic will help no one! From present signs, such a panic seems probable some day—especially in Canada.

Shortage Of Skilled Labor

Another price factor under wartime conditions is the supply of citis can be cured only as the apskilled labor. A shortage already exists in certain industries which are operating at all-time peaks, such as aviation manufacturing, machine tool and machinery. By shortage, I mean that the competent skilled workers have all been snapped up. These companies are now digging down into the bottom of the labor barrel and are being forced to take on inadequately trained workers. This would be a very serious situation if the United States were involved in a war. These three industries are the backbone of our army and navy.

One of the reasons why a shortage of skilled men is developing is because of union rules. Unions in the past few years have refused to take on apprentices in their trades. They have done this to keep down the available supply of trained men and thus artifically to peg their pay. In fact, the government is becoming so worried over this condition that it is asking big industries voluntarily to take on capable young men for training. The restrictions on apprentices should be removed.

Government Warns Labor "Trust"

Just as some years ago the government said to the utilities, "If you refuse to cut rates we will go into competition with you", the government is now saying to the unions, "If you intend to monopolize labor in your trade we will foster competition". This is a very hopeful sign. War or peace, we cannot have any lasting prosperity in America if costs—both for labor and materials—keep going up. We improve our standard of living by lowering—not increasing—costs!

What does all this mean to consumers? It means that a long war would boost your cost of living substantially. You would have to pay higher prices for nearly everything you buy. Keep this in the back of your mind. However, now is not the time to get panic-stricken and lay in big supplies of flour, sugar and the like. Our warehouses are bulging with them. There will be plenty of opportunity to do this when we know more about the war. For the time being, go about your business and home purchasing in a normal way—just as you would if there were no war!

Unusual Sentence For Morris Berman In Cumberland Court

Place Philadelphia Man On Probation For Five Years With Stipulations

(International News Service)

CARLISLE, Pa., Nov. 3.—An unusual sentence was meted out today to Morris Berman, Philadelphia, who pleaded nolo contendere to charges of violating the state securities act, by Judge Fred S. Reese, Cumberland county.

Placing Berman on probation for five years, Judge Reese set up these terms.

1. Berman must pay the cost of prosecutions, satisfy all mortgages and other liens on Warren group No. 1 (lands involved in an alleged oil fraud) development before Nov. 15 and convey to a trustee all lands not yet sold to investors.

2. Assign to a trustee all records and rights in the Warren group development.

3 Pay Cumberland county $1,000.

4. Pay to Karl E. Yungel, Mechanicsburg, the sum of $440 and to Mrs. Estelle Thomas Steele, Mechanicsburg, $1,000—the sums invested in the oil lands by the pair.

5. Refrain from being identified from any questionable investment schemes and behave generally.

6. Report to the district attorney of Cumberland county four times a year.

Berman abruptly halted his trial on Wednesday by entering the "no defense" plea. Charges of conspiracy against A. L. Benton, Bradford surveyor, were dropped.

Judge Reese warned Berman that "any violation of these conditions of probation means that the defendant will be brought back and substantial jail sentence imposed."

All Set for a Fall to Add To Nation's Accident Toll

Home accidents, seldom regarded as a serious menace to life and limb, were responsible for more than one-third of the accidental death total in the United States last year, according to the National Safety Council.

Somewhat obscured by the mounting concern over automobile accident fatalities, the home accident problem needs to be brought more forcibly to the attention of the public, American Red Cross authorities on accident prevention state.

It is pointed out that in comparison with the 32,400 automobile accident fatalities last year, there were 31,500 deaths from home accidents. In non-fatal injuries, home accidents exacted a far greater toll with 4,500,000 temporary disabilities as compared with 1,050,000, for automobiles and 140,000 permanent disabilities as against 90,000 caused by motor cars.

Those who lost their lives within the four walls of their homes were principally the victims of the following types of accidents: falls 16,500 dead; burns and explosions 5,300 dead; food and drug poisoning, 1,600 dead; mechanical suffocation, 1,200 dead most of whom were infants; poison gases, 1,000 dead and firearms, 1,000 dead.

Mr. George Reid is chairman of Accident and Prevention in the Lawrence county Chapter, this year with the cooperation of the Junior Red Cross and the sponsors—22,000 check lists were distributed throughout the county. Each parent received the list and was asked to make a check of their home and do away with the causes. Of this large number, over 80 per cent were returned which is a splendid accomplishment. Besides this, Mr. Reid broadcasted during the National Accident Prevention week and the New Castle News carried interesting articles.

Highlights On The Sunday School Lesson

The Golden Text

"Be ye therefore perfect, even as your Father which is in heaven is perfect."—Matthew 5:48.

By NEWMAN CAMPBELL

(The International Uniform Lesson on the above topic for November 5 is Matthew 5:17 to 6:18, the Golden Text being Matthew 5:48. "Be ye therefore perfect, even as your Father which is in heaven is perfect."

TODAY'S lesson is to memorialize Armistice Day, although in view of world conditions, the observance this year will be something of a farce.

It consists of Jesus' sayings about our treatment of people who do not like us and who make lives unhappy — our enemies, in other words. If individuals would live according to the rules Jesus laid down in this lesson, we would have no unpleasantness in homes, communities or neighborhoods. And if nations observed these principles there would be no need for law.

The old Hebrew laws seem barbarous to us, for they said "an eye for an eye, and a tooth for a tooth," meaning that if you harmed me I must do the same amount of injury to you. Jesus' way was a new one. "I say unto you, that ye resist not evil; but whosoever shall smite thee on thy right cheek, turn to him thy other also. And if any man sue thee at the law, and take away thy coat, let him have thy cloak also; give to him that asketh thee, and from him that would borrow of thee turn not thou away.

Loving Our Enemies

"Ye have heard that it hath been said: Thou shalt love thy neighbor and hate thine enemy. But I say unto you, love your enemies, bless them that curse you, do good to them that hate you, and pray for them that despitefully use you, and persecute you:

"That ye be the children of your Father, which is in heaven; for He maketh His sun to rise on the evil and on the good, and sendeth rain on the just and the unjust."

I suppose this advice couldn't be taken too literally, but when people are unkind to us they really do hurt themselves more than they do us, if we can but see it. No one can harm you but yourself. And it injures you more to think hateful things and to revenge yourself savagely on those who harm you than anything your enemies can do or say.

You can think "Why did so and so do such a thing? He must be very unhappy to be so spiteful." For it is a curious thing that no matter how little people say they disregard ethical standards of living, it is absolutely impossible for anyone to be really happy when they are doing wrong. They may pretend they are happy, but they know in their hearts they are not.

Jesus further told His followers that they gave to those poorer than themselves, not to do so with a great flourish. "When thou doest alms, let not thy right hand know what they left hand doeth," He said.

The Secret Prayer

Then He spoke of prayer. "And when thou prayest, thou shalt not be as the hypocrites are, for they love to pray standing in the synagogues and in the corners of the streets, that they may be seen of men. . . .

"But thou, when thou prayest, enter thy closet, and when thou hast shut the door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly." Then Jesus gave them what we call "The Lord's Prayer — the universal prayer.

And finally, He told them the parable of the Good Samaritan. We have told the story more than once in these lessons, about the man who went upon a journey and fell among thieves, who stripped him of his clothing and everything of value, wounded him sorely, and left him to die on the road. And soon a priest came along, but when he saw the wounded man he crossed over and passed by on the other side of the road. Then a Levite came along and did the same. But a certain Samaritan came where the man was, saw him, and had compassion on him. Remember, that the Samaritans were despised by the orthodox Jews, so it was very courageous of Jesus to make the hero of His story one of that sect.

This Samaritan bound up the poor man's wounds, set him on his own mount, and took him to an inn where he further cared for him. And when on the morrow he had to leave, he gave the innkeeper some money and told him to care for the stranger, and if the inn-keeper needed more money he would pay it him when he returned from his journey.

Our Golden Text is, "Be ye therefore perfect, even as your Father which in heaven is perfect." I am afraid we cannot be perfect, but if we try hard to follow these precepts of Jesus, we can at least make our little place in the world better for our living in it, can't we?

GERMAN AERIAL INVASION BROKEN UP BY FRENCH

(International News Service)

BRUSSELS, Belgium, Nov. 3 — French anti-aircraft guns and pursuit planes brought down one German plane and drove off an attempted German aerial invasion of French territory Thursday, according to an Agence Belga dispatch from Tournai.

The message said inhabitants of Estaimpuis, France, near Roubaix, sent to shelter when local church bells sounded an air raid warning, saw one of three invading aircraft brought down by French frontier artillery.

The two remaining German craft sped off quickly when they were pursued by French fighters.

An initial meeting of the new group was held Thursday evening in the home of Jordan Bailey, 1127 North Liberty street. According to Mr. Bailey this organization will be for residents on the northside of the ward, including the streets: Liberty, Ashland, Wilder, Cedar, Mahoning and Swansee.

Civic Club Has Luncheon Meeting

Discuss Coming Christmas Lighting Project For Seventh Ward

Members of the Seventh Ward Civic club held a luncheon meeting in the basement of the Mahoning Methodist church. In the absence of the president, Jack Brettell, the meeting was conducted by Ray Horchler.

Horchler presented a report on his findings in regard to the annual Christmas lighting project for the Seventh Ward streets. It was learned that due to the installation of the new street lights, four additional poles have been added, making it necessary for the club to purchase four additional light strings.

These lights will be put in place several weeks before Christmas it was reported at the meeting. Plans are being made to hold a benefit dinner to raise funds to pay for the lights this year.

NEWS BRIEFS IN WARD DISTRICT

Hunters from the ward have reported that game seems to be rather plentiful in the woods and fields this season. Many have returned from hunting expeditions with their limit for the day.

* * *

One hunter from the ward had a good story to tell his friends Thursday afternoon. He reported that where he was hunting on the first day of the season he stopped for three minutes to count the shots and he said that he actually counted 76 shots in that length of time.

* * *

A pedestrian crossing in the middle of the block came near being hurt Thursday afternoon, when he was bumped by an automobile backing up to get out of a parking place. The quick actions of the street jay-walker enabled him to back up as fast as the car and thus escaped being knocked down.

* * *

Bicycle riding is still one of the unsolved problems of motorists. Most of the youngsters riding bikes fail to observe any traffic regulations whatsoever and thus endanger themselves and passing motorists.

Girl Scout display in the branch library window on East Madison avenue is drawing considerable attention and comment. The display was placed in connection with the celebration of Girl Scout week, here. Mrs. Arthur M. Brown was instrumental in having the exhibit arranged.

Tour Of Pottery Ends Program

Four County Library Club Members See Shenango Pottery Plant

NEXT CONFERENCE AT EMSWORTH, PA.

Delegates to the Four County Library club's fall session had an educational tour through one of New Castle's largest industrial plants, the Shenango Pottery, Thursday afternoon, as the final activity on their all day program.

The tour was arranged, as were the other meetings held throughout the day, by Miss Alice Sterling, local librarian, and members of the local library staff who acted as hosts for the gathering.

During the business session conducted Thursday, Mrs. Agnes Hazeltine of Emsworth, president of the club, presided and led the discussion periods. Eleanor Dunkerley of Geneva college library, Beaver Falls, is secretary of the organization and read the minutes of the last meeting.

To Meet At Emsworth

Plans were made to hold the spring meeting of the Four County group at Emsworth. Largest delegation of librarians and library workers came from Emsworth, with ten in the party, and they put in a strong bid for the spring session.

The luncheon meeting, arranged by the library, and held at The Castleton hotel, proved to be a colorful event. Attractive placecards, each made to represent a different book character, were made by a well known local amateur artist, Everett Hoffman.

Registrations were handled by Mrs. Gladys Kyle of the New Castle staff. There were two persons in attendance from places outside the districts included in the club. They were Evelyn Matthews, librarian of the Pennsylvania State Library in Harrisburg, and Frances Kelly, director of the Carnegie library school of Pittsburgh.

Four members of the official board of trustees of the local library were at the luncheon meeting: President William J. Caldwell, Mrs. Rebecca Royce, secretary; Clarence A. Patterson, treasurer, and Major Guy Wadlinger. Mr. Caldwell took part in the interesting discussion of "Propaganda in the Library".

Four Buildings

An opportunity for those who had not already done so, was provided for the group to view the local library building, explaining the many features that go to make the library work easier and more efficient.

Main business of the club was to convey to those members who were unable to attend the recent Regional Library Conference held in Hershey, Pa., a vivid report of the happening at that session. Several reports were given during the morning session by members of the Four County club, who were delegates to the regional conference.

Representatives of nearly every library in the counties of Lawrence, Beaver, Butler and Mercer came to New Castle for the meetings Thursday.

The city of New Castle police department worked out a parking system for the visitors, whereby the parking space surrounding the library building was reserved for the club members, and each was furnished with a police courtesy card. Thomas Jones was in charge of this end of the hospitality dispensing.

Parish Supper At Trinity Church Is Highly Successful

Eloquent And Inspiring Address Last Evening By Rev. Malcolm Maynard

Nearly a hundred people sat down last night to the annual parish supper of Trinity church in the guild room at the corner of North Mill and East Falls street.

During the evening Harry J. Culliford led the gathering in singing with Miss Elodwen Davis at the piano.

Following a delicious dinner prepared and served under the leadership of Mrs. H. J. Culliford, Mrs. J. C. Davis and Mrs. L. F. Royston, Judge Thomas W. Dickey, the toastmaster, extended greetings to the happy family gathering and introduced as the speaker of the evening, the Reverend Malcolm Maynard, rector of Grace church, Ridgway, Pa., who delivered a most inspiring and forceful address on "Loyalty to the Church." Following the address, moving pictures were shown by T. Gwyn Lewis depicting the mission work in the Diocese of Erie.

Lewis J. Lewis, chairman of the annual every member canvass, was next introduced and outlined by the use of pictures and charts thrown on the screen, the procedure to be followed together with details of the budget and quota set for the work of the parish and missions during the coming year, and appealed to the gathering for their support in meeting the full needs of the church

The Reverend and Mrs. Charles J. Burton, of St. Andrew's church, New Castle, and St. Luke's, Ellwood City, were introduced and brought greetings from the missions of the county.

The Reverend Philip C. Pearson, rector of Trinity church, reviewed the activities of the local church and spoke on the need for a renewal of efforts to go forward and to lay foundations for immediate and sustained advance.

Nix! City's Chest Drive Isn't Over, Chairman Declares

Quiet, Thorough Campaigning Goes Forward—$45,410 Now Pledged

Though some may think so, New Castle's "silent-geared" Community Chest campaign for $60,000 hasn't let up in the slightest, Marshall G. Matheny, chairman of the drive forces, asserted today. It just happens that it's a quiet campaign.

In an optimistic statement Matheny, deep in the details of solicitation and checking and double-checking, sounded the call to victory—the victory he knows is "bound to come". He issued the call at chest headquarters, 37 North Mercer street, center of campaign operations.

"New Castle will put over this $60,000 drive—I know it," he said. "Citizens aren't going to let down nine of our important welfare agencies, but to get all the subscriptions may take a little bit longer."

Today teams had swelled the total to $45,410.

Workers, loyally carrying out their campaign duties minus the accompaniment of dinners and other public rallies, have referred to the drive as "silent-geared". The dinners were tabooed to cut expenses.

Girl Scouts Here Observe Today As Citizenship Day

Activities Of New Castle Girl Scouts Are Numerous As Holidays Near

Today is Citizenship Day in Girl Scout Week, and New Castle Scouts will join with sister Scouts throughout the United States in sharing their program with the public. According to Miss Helen MacLean, local director, troops have spent the fall becoming acquainted with their community, the services it performs and ways in which Scouts may become better members of their community.

Traffic regulations for pedestrians as well as motorists, care of public buildings, library books, as well as inspecting city water works, post office facilities and fire departments, are all part of the game of Citizenship to Scouts.

Senior Scouts and older girls are able also to make more definite contributions in the form of concrete service. Two troops helped with the Community Chest drive by preparing materials for the campaign; three troops are assisting the Red Cross in delivering supplies for their drive, and many more are buzzing with plans for Thanksgiving and Christmas, which will reflect the awareness of even small Scouts of some of the responsibilities we have toward the city in which we live

The exhibits and activities you see and hear about during Girl Scout Week, October 29 to November 4, are especially designed to acquaint our community with what New Castle Scouts are doing

Guild Articles Are Distributed

With the police department acting as the messenger service, the garments received at the ingathering of the Needlework Guild on Thursday are being distributed today to eight institutions.

The total garments received was 3096, about the same as last year. Within a day or two the officers of the guild will have a detailed account of where the garments went and the number to each institution.

Toy Tank Taken From Wallace Ave.

City police were told today that a tank is missing here!

A mounted gray and black toy tank it is, though, and not one of the Westwall variety. And it's Hallowe'eners who made off with it and not some mysterious enemy force.

Up at the C. R. Kennedy home, 325 East Wallace avenue, young Dave and Jimmy Kennedy, "commanders" of the war toy, are longing for its return. Two years ago their father, associated with the New Castle Refractories plant here, gave it to them as a Christmas present. It's four feet long and three feet high and furnishes fun aplenty for neighborhood youngsters.

During the Hallowe'en celebration a gang captured it on the Kennedy lawn—but Dave and Jimmy are still hoping it will show up again!

Seventy Four Indictments Are Issued For Alleged Lottery Participation

(International News Service)

BOSTON, Nov. 3.—Federal warrants were issued today for the arrest of 74 persons, many prominent in sports and police circles especially in the metropolitan Chicago area, who were indicted for alleged participation in a $20,000,000 asserted fake lottery which, it is charged, was proclaimed as a benefit for the Will Rogers Memorial hospital.

Mrs. Will Rogers, widow of the famed humorist is on record with the declaration that the lottery was never authorized.

Those named in the indictments included:

Abraham F. Zimmerman, Chicago, alleged king-pin of the scheme.

Ernest Dallege, former Chicago policeman discharged for accepting bribes and once held on a kidnaping charge.

Armand Lizotte, Putnam, Conn. (Reported under arrest.)

Dr. Frank Deacon, Chicago, former colonel in the U. S army medical corps.

Russell "Duke" F. Emerich of Casey, Ill., former football star at the University of Chicago.

James H. Van Natta, 65, retired Chicago police lieutenant.

Among those named as defendants about the country in various cities was John F. Minteer of Ellwood City, Pa.

Canadian Premier Answers Criticism

(International News Service)

OTTAWA, Ont., Nov. 3.—Prime Minister W. L. Mackenzie King today replied to the criticism of the government's war preparation program made by Dr. R. J. Manion, leader of the conservative opposition party, with a promise of a full investigation of all specific charges.

Charging the government with what he termed "a very regretable lack of military preparedness," Dr. Manion asserted politics governed the awarding of some defense contracts. He suggested parliament be convened in January to review the government's war program.

Prime Minister King pleaded for a non-partisan support in waging the war, said he would welcome constructive criticism, and promised a full investigation of any specific charges submitted to him.

The aid of some of the finest criminal scientists in the country has been enlisted and if the case is finally closed without solution it will be in the same shape as the ones in Cleveland.

Coastal Shipping Is Threatened By Longshoremen Strike

(International News Service)

NEW YORK, Nov. 3—Threatening a paralysis of coastal shipping from New England to Texas, New York longshoremen walked out on strike today against nine coast-wise shipping lines as the result of a wage dispute.

Emergency police patrols were at once ordered to the Hudson river waterfront as the first 500 men quit their jobs on the stroke of midnight. They were followed by 3,500 more on the next shift, according to Joseph P. Ryan, head of the International Longshoremen's Association, who estimated 5,000 men will be on strike by nightfall.

In addition to the 3,500 sailors on the 70 ships operated by the lines, a total of 15,000 longshoremen in ports along the Atlantic Coast may ultimately be affected if the strike is prolonged, according to union officials.

The Longshoremen's Union asked a wage increase of 10 cents an hour and a 40-hour week. The old contract called for 95 cents an hour and a 44-hour week. The union offered to compromise on a five cent increase but this was rejected by the ship operators. The strike call was issued when the union rejected an offer to extend the present contract for 90 days.

Plans For Hangar At City Airport Will Be Prepared

City Delegation Optimistic That Hangar Will Be Constructed Soon

Mayor Charles E. McGrath, Councilman Joseph D. Alexander and City Engineer Glenn R. Throop last night returned following a conference with Colonel Philip Matthews, state administrator, WPA, at Harrisburg. They were optimistic concerning their quest of money with which to have built a hangar and lights at the New Castle airport.

They were instructed to prepare plans for a hangar and lights so the cost could be learned.

In this connection the officials stated, the WPA will send several attaches here next week to aid Throop in preparing these plans.

The type of hangar has not yet been decided. The cost estimates will be taken on steel, brick and concrete. Fifteen thousand dollars are needed for lights.

The city would also like a third runway, coursing north and south for a distance of 3,175 feet. There now are two runways, one 2,650 feet and another 2800 feet, in length.

Throop said that while Colonel Matthews did not make any definite commitments, he was in a receptive mood concerning the New Castle airport and was fully acquainted with its progress.

According to Throop and the other officials, they expressed optimism that sooner or later the money would be secured.

Italian Methodist Dinner Is Enjoyed

About 450 spaghetti dinners were served Thursday night in the dining room of the Italian Methodist church by the Ladies Aid Society and Epworth League. It was probably the most successful event of its kind ever to take place there, and those in charge, committeemen and committee women are to be highly complimented. The spaghetti was cooked just right, the service was good, and the musical entertainment was much enjoyed. The entertainment consisted of a series of vocal numbers by the Welker sisters (Bernice, Maxine and Lou,) and instrumental numbers by the Starettes, Evelyn and Stevie Plum, Louise DeSalvo and Violet Germani.)

OUT OF HOSPITAL

Joseph Johnson Fisher, 216 North Jefferson street, who was struck by an automobile several days ago, has recovered sufficiently to return to his home from the New Castle hospital.

4 tablespoons Spry
5 tablespoons flour
2 teaspoons salt
½ teaspoon pepper
Dash of cayenne
1 cup veal stock
1½ cups cooked veal, diced
½ cup cooked rice
½ cup sifted bread crumbs
1 egg, slightly beaten with 1 tablespoon water

Melt Spry in top of double boiler. Add flour and seasonings and blend. Add veal stock and cook until smooth and thick, stirring constantly. Remove from fire. Add veal and rice and mix thoroughly.

Spread mixture in shallow pan and chill until stiff. Form mixture into cutlet shapes or cut with biscuit cutter. (So much easier than shaping each cutlet by hand.) Roll in crumbs, then in egg, then again in crumbs. Fry in hot Spry (375° F.) 1-inch deep in heavy frying pan until brown. (No unpleasant smell or smoke with purer Spry—and such delicate-tasting foods!) Drain on absorbent paper. Serve with glazed apple rings or with a sauce of currant jelly thinned with orange juice. Serves 6.

GLAZED APPLE RINGS

4 large apples
¼ cup Spry
2 tablespoons sugar

Core apples and cut in ½-inch slices. Melt Spry in skillet, add sugar and stir until slightly caramelized. Add apple rings and sauté until golden brown on both sides. Glaze other fruit the same way.

(All measurements in these recipes are level)

—(Clip and save this Spry recipe)—

Only Spry gives ALL these 3 Extra Advantages
Purer, stays fresh longer, creams so easily

"A SHORTENIN' with all these big advantages is certainly grand for all bakin' an' fryin'!" says Aunt Jenny. "You get such light, delicate cakes an' mixed so easy—such tender, flaky pastry an' crispy fried foods. An' they're easy to digest, too. Change to purer Spry."

Scouters Plan To Cancel Field Meet Saturday

Outline Plans For Scout Training Course At Meeting Thursday Night

New Castle District Field meet that was scheduled for local Boy Scouts for Saturday, has been cancelled for this year. This decision was reached at the district scout leaders meeting held Thursday night at the Walmo school.

Neshannock Troop 1 was host for the Scouters Thursday. Due to the cancellation of this field meet, it is thought that perhaps an indoor field meet may be held in the near future.

Plans were made to conduct another of the popular training courses for scout leaders and committeemen. This will be for scouters in the New Castle district and will begin during the second week in December.

COLONIES SEND TREES FOR ROME EXHIBITION IN '42

(International News Service)

ROME—Some 6,000,000 samples of trees, bushes and flowers from all parts of the Italian Empire are now being planted in the grounds of Rome's large-scale botanical gardens for the World Exhibition in 1942.

Workers are placing enormous heaps of different kinds of earth, mould, turf and sand along the new broad road that will lead to the exhibition, and hot-houses and hotbeds are under construction.

The extensive eucalyptus plantations with which French Trappist monks changed an almost deserted malarial zone into a healthy place during the last century, will be sacrificed to make space for the exhibition.

News And Views From Pennsylvania Capital

(International News Service)

HARRISBURG, Nov. 3.—Despite the enactment of the anti-macing bill, a central plank in the early James administraton program charges of macing are cropping up throughout the state as the fall election nears its end. There is no indication, however, that the administration is easing its announced opposition to the macing of state employes for political purposes . . . On the contrary, the attorney general has already announced he has sent out a special, unnamed, deputy attorney general to investigate the reports of macing.

The charges of macing are strongest in Philadelphia, Allegheny, Lackawanna and Schuylkill counties. . . . Both Democrats and Republicans are leveling them against each other. . . . Thus, in Philadelphia, the Republicans are charged with attempting to mace public employes and with forcing a blind person to change his registration on threat of depriving him of his pension; while in Pittsburgh the Democrats are charged wth attempting to mace city and county employes.

The anti-macing law was passed by the last legislature at the request of Governor James. . . . Its purpose is to prevent the coercion of public employes.

According to a report by State Treasurer F. Clair Ross the treasury as of the close of business October 31 appeared to be in a more healthy condition than a year ago under the Earle administraton. . . . The treasury balance was $77,649,000 compared to $68,484,000 a year ago. . . . The motor license fund was apparently also in a healthier condition, being $12,877,000 now, compared to $9,266,000 a year ago.

Employment In State On Increase

Secretary Of Labor Reports Good Gain Made In Pennsylvania This Fall

By ARTHUR C. WIMER
(Special Washington Correspondent, New Castle News)

WASHINGTON, D. C., Nov. 3.—The industrial swing upward brought a material increase in Pennsylvania employment and payrolls during September, Secretary of Labor Perkins reported today.

Miss Perkins' survey covered 6,133 industrial establishments in the Keystone State. During September these plants employed 718,697 workers and had an average weekly payroll of $18,020,269. These levels represented increases of 2.5 per cent in employment and 2.8 per cent in payrolls over August.

It is believed that labor department figures, to be released later, will show even greater recovery in Pennsylvania during October as compared with September.

State And Local Government Cost Now $700,000,000

Economy League Says Increase Of $23,000,000 Came Between 1931-1937

RELIEF IS LARGE CAUSE OF INCREASE

(International News Service)

HARRISBURG, Nov. 3—Forecasting a 1939 governmental cost of more than $700,000,000, the Pennsylvania Economy League today reported a $23,000,000 increase in the total cost of state and local government between 1931 and 1937.

An analysis by the League placed the cost of all governments in Pennsylvania at $627,924,000 in 1931 and at $651,067,000 in 1937.

Large scale shifts in the responsibilities borne by state and local governments, the League said, would probably boost the total cost of government this year to above the $700,000,000 mark.

The League pointed out, in addition, that during the six year period the cost of all local governments—counties, cities, boroughs, towns, townships and poor districts—decreased nearly $87,000,000 as municipalities lopped over $52,000,000 from their annual expenditures for permanent improvements and various responsibilities and expenses were transferred to the state.

Unemployment Relief

Over the same period, however, the cost of the state government mounted more than $110,000,000 as the commonwealth absorbed functions transferred from local governments and assumed the responsibility of unemployment relief.

"Unemployment relief," the League declared, "for which the commonwealth had no direct expenditure in 1931, accounted for $67,002,000 of the increase appearing in 1937. It was the major new function which developed during the period and was assumed by the commonwealth."

Welfare Expenditures

Zooming governmental costs, particularly in state operation and maintenance, were reflected in the upkeep of public welfare functions, the League report stated.

A jump in welfare expenditures it was pointed out, was noted over the six year period, from $26,259,000 in 1931 to $42,023,000 in 1937.

"The increase was $15,764,000 and represented the combined cost of new functions (blind pensions and old age assistance) and increased costs of continuing state functions (mothers' assistance)," the report said.

An almost as great an increase in state expenditures occurred with the commonwealth's assumption of the responsibility for roads formerly maintained by townships, counties, cities and boroughs, it was added.

Highway Expenditures

In 1931, the report said, the commonwealth's highway expenditures totaled $56,559,244 but jumped to $69,417,420 in 1937.

"The administrative and spending trends which produced the $23,143,000 increase in over-all cost of government," the League reported, "also had an attendance effect upon the incidence of a large part of the total government cost.

"With local government financed largely through takes on real estate, the reduction in municipal expenditures automatically lessened the load borne by that class of taxpayers. Simultaneously, the commonwealth's assumption of new functions formerly administered by local government produced a large increase in the revenue the state had to raise from sources other than real estate."

IMPROPER TREATMENT OF ROUND WORMS MAY CAUSE LASTING ILL EFFECTS

In our talk yesterday about the presence of round worms in the intestinal tract of children, I told you of the symptoms and how they affect children. If you discover that your child has these parasites in his stomach and intestines, take him to a doctor for treatment. Don't try to cure him at home.

There is a fairly powerful drug used to rid the system of round worms, but I don't think I am going to give you the name of it. I'll tell you why. It is like the drug used for tapeworms in that if the proper doses aren't given, it may be toxic in its effect, causing vomiting, and convulsions. I remember one poor little girl I went to see a number of years ago who had one side paralyzed. Her mother suspected she had round worms got the drug to kill them and dosed the child herself. She killed the worms, but she left her daughter with a permanent paralysis. Do you wonder why I advise you not to undertake the treatment yourself and why I ever withold the name of the cure?

The drug I speak of is given in the early morning, one drop per year of age. It is given in sugar usually, and it must be followed by a laxative. This laxative must be a strong one, and so this is one of the few places I advise that children be given castor oil or Epsom salts. Often a doctor will recommend that the laxative be given every couple of hours.

If this treatment is going to be successful the long worms will appear in the faeces shortly after the treatment has begun. If it isn't successful, there may be a lag of twenty-four to forty-eight hours before the worms appear.

Another reason why it is well to have a doctor present when the treatment is started is that on occasion a mass of these dead worms will get stuck in the bowel. Very often it is a good idea to give an enema, for this helps loosen any masses that may form and washes them out.

There is another treatment which isn't as severe as the one described above. The trouble is that it isn't as efficient either. It is a milder drug, given often in the form of chocolate - covered lozenges. Here again care must be taken, for an overdose will have toxic effect. The chief sign in this case is the presence of a purplish red color in the urine.

You can see that while the treatment for round worms isn't as severe as that for tapeworms, it is still serious enough. Certainly it isn't the kind of thing a parent should undertake without the permission and supervision of her doctor.

Again, as in the case of tapeworms, while the cure is severe, the prevention is simple. The careful washing of all fruits and vegetables before they are eaten is very important in preventing the illness from occurring.

SAN FRANCISCO, Nov. 3.—Believed the victims of a gangland "ride," the bullet-riddled bodies of two well-dressed men, identified as escaped convicts from prison, were found Thursday in a shallow gully of lonely Thornton Beach, a few miles south of San Francisco.

The victims were:

Ray Lagomarsino, 32, a gunman known as the "bad boy of Daly city" who won freedom from Alcatraz on a writ of habeas corpus but later was sent to Folsom for a new crime.

Leo Tyma, 37, once known as one of Folsom prison's most dangerous prisoners, who served a term in Alcatraz when it was under the jurisdiction of the U. S. Army.

Lagomarsino and Tyma escaped with a third convict, Ray Thompson, from a Folsom prison road camp near Tehachapi on Oct. 21. Thompson is still at large.

AFTERNOON TEA

Mrs. W. H. and Mrs. Etta Weinschenk entertained at a tea party on Friday afternoon from 2 to 4 o'clock, at the home of Mrs. W. H. Weinschenk.

Amidst a autumal setting of chrysanthemums, thirty-five ladies gathered and enjoyed a very pleasant afternoon in social chat.

At a suitable hour a very delicious lunch was served by the host and her joint hostess, assisted by Mrs. W. B. Caban, Miss Ruth Weinschenk and Mrs. Jennie McQuiston.

Out of town guests were Mrs. Grace Stinebaugh and daughter Edna of Zelienople, Mrs. Jessie Dickson of Edinburg, and Mrs. Jessie Yoho, of Wilmington road.

Tempestuous Little 'Coon Amusing Neighborhood Pet

Jeff, (a lady raccoon, misnamed in honor of one of the gas company men who share their lunches with her), lives in Ellis Way, just off East North street, and although Mr. and Mrs. Wyatt R. Campbell are her official owners, she is the pet of the entire neighborhood.

Jeff dearly loves fish and crabs, especially crabs, and the boys of the neighborhood are kept busy catching them in the shoals of the Neshannock. The captured crabs are placed in a pan of water and Jeff picks out one at a time, holding its pinchers and eating it tail first. It's hard cheese on the crabs...But sometimes Jeff gets pinched and oh boy that makes her mad; she throws the wretch as far as she can, done with it for good.

For dessert she is very fond of candy, ice cream and cake. She also likes graham crackers, grapes and peals a banana as expertly as a monkey. She adores milk shakes, especially chocolate ones.

A whimsical, paradoxical creature, she has taken a liking to a white dog who occasionally calls, but once a cat made the mistake of coming too near and she threw it clear across Ellis Way. She likes to play, but isn't above giving some rough nips. She very obligingly stands on her hind legs and covers her eyes with her little black hands, but persists in peaking.

She is fat, sleek, spoiled and clean as a pin. She washes most of her food in her little pan before eating it. She revels in the rain and has even been seen with her head up the rain spout. She lives very happily at the end of a long chain, out in the open, and is equally at home inside, crawling up on a lounge like a bear cub. When inside she likes to be treated like a member of the family; placed ignominiously in the garage, that old temper rises again, and on the level, Jeff is a little—well, a very naughty little sulky coon.

Knights Ask Prayers For Universal Peace

Sunday Night, November 12, To Be Set Aside As A Prayer Period For World Peace

Prayers for the peace of the world will go up from Lawrence county from many churches Sunday evening, November 12. In a letter to all Catholic churches in Lawrence county today, B. N. Hanlon, grand knight of the Knights of Columbus, has urged that this date be set aside for such purpose and has also referred the suggestion to the Ministerial Association in the hope that the Protestant churches will cooperate.

In the letter Mr. Hanlon said, "With newspapers, foreign dispatches and radio broadcasters describing in gruesome detail the daily pre-preparations for advancing the European conflict into the full horrors and ravages of modern warfare it is especially fitting that the Knights of Columbus should co-operate with the church in turning the minds and hearts of all people to the Prince of Peace."

Other councils of the Knights of Columbus throughout the nation have taken similar action and it is hoped that on November 12 the prayers of millions of Americans will rise in behalf of universal peace.

State Guard To Start Additional Field Training

(International News Service)

HARRISBURG, Nov. 3.—Falling in line with the increased national defense program ordered by the U. S. war department, the Pennsylvania National Guard today revamped its program to provide for additional field training.

The first unit to inaugurate the new program will be the 166th Field Artillery, which will mobilize at the state military reservation at Indiantown Gap tomorrow. Other units will participate thereafter.

The war department directed an additional week of field training by January 31, plus an additional drill period each week, for all national guard units.

Washington Ascends Junior High Throne, Trim Franklin 12-0

Championship For 1939 Season Goes To Fine North Hill Junior High Eleven

Lee Tallies Both Touchdowns, Franklin High Outplayed In Every Quarter

DISPLAYING a dazzling attack that the Franklin High boys could not fathom, the George Washington Junior Hi football team ascended the heights of championship junior high school football here yesterday afternoon at Taggart Stadium by topping the East Siders 12 to 0 before more than 3,000 students. Robert "General" Lee, colored speedster tallied both of the North Hill touchdowns, in the final half of the battle.

The Alexander coached team nearly scored in the first period. Lee and Doster carried the ball to the Franklin one-yard line and fumbled, the ball being recovered by Rozzi for the Franklinites. The feature of the first period was a dash of 20 yards by Lee around the Franklin right end. There was no score in the first period.

The first half ended in a 0-0 deadlock. Paige of the Franklin team got away for two first downs and Doster made several nice gains for the North Hill boys. Neither team showed much of a passing attack in the first two periods.

Lee Scores Touchdown

Early in the third period the Washington High team threatened to score. A 40-yard march down the field by Lee, Doster and Davis, put the ball deep in scoring position, but a grounded pass over the goal line on the fourth down gave the Franklins the ball out on their own 20. Roger Maggie kicked on the first down, and Lee taking the ball streaked to the Franklin 23 yard line after a 25 yard dash.

On the next play after his 25 yard dash, Lee took the ball and broke out around the end and was over for the first Washington touchdown. Gunn tried the extra-point and failed as the Washington High student body went into hysterics.

In the third period the Franklin High team got away with some nice passes, but for the most part could not get beyond the middle of the field. The Washington High line performed brilliantly.

Lee Tallies Again

To start the fourth and final period Willie Gunn, the clever colored left end of the North Hill team kicked out of bounds on the Franklin three-yard line down in "coffin corner." Maggie had to drop back of the goal line to punt out. He got away a fine kick that stopped on the 50-yard line. Gunn kicked right back to Franklin on the Franklin 5-yard line.

Paige on the first play picked up 30 yards to the Franklin 35-yard mark, but on the next play Franklin fumbled and Washington took the ball on the Franklin 30 yard line.

Using a deceptive spread formation that has not been seen around here before by any of the junior high teams the Alexandermen tallied the clinching touchdown with Lee scoring from the 30-yard line. Gunn again tried the extra-point, but it was wide of the bar. Washington 12-Franklin 0 and pandemonium broke loose in the Washington rooting section. There were just three minutes left to play.

Maggie Plays Well

Roger Maggie, the Franklin High ace threw several fine passes in the dying moments of the game, but it was not Franklin's day and they could not get a man over the goal line. The work of Milone and Joseph stood out on the Franklin line, and as said previously the whole Washington line looked very good.

In the matter of first downs the Washington High team had a big advantage 9 to 2. The Washington High team really deserved the victory and toga putting up a game that would have licked most of the junior high teams in this section.

"General" Lee and Doster were the standouts in the Washington backfield. Gunn at left end played a whale of a game and did all the kicking.

New Castle At Monessen For Football Game

Game Tonight Will Be The Eighth Of Year For "Red Hurricane"; Lineup May Be Changed

HOPE TO DEFEAT GREYHOUNDS

EARLY this afternoon a bus carrying 45 or 50 members of the New Castle high school "Red Hurcane" football team, coaches, managers and others left Taggart stadium for Monessen, Pa., where tonight at 8 o'clock the "Canes" will meet the Greyhounds of Monessen high at the newly constructed schcol stadium.

It was rather a crippled New Castle team that faced the Monessen team today. Sammy Ciazza, the right half, is favoring an injured ankle and was not slated to start by Coach Phil Bridenbaugh. Either Otis Burris, the colored flash, or Thomas will get the starting right half spot, it was indicated.

Gilboy At Quarter

Gender has not been feeling any too chipper this week and may give up his starting berth at quarter to young Tommy Gilboy. In the event that Gilboy is moved to the backfield his place on the line at left guard will go to Don Jerry.

The locals are not discouraged by the defeat suffered at Massillon last Friday night and will go into the game at Monessen tonight to redeem themselves. No team this year has run up a big score on the Greyhounds, and New Castle may do this very thing if the going gets tough.

New Castle will uncork its forward passing attack in all its fury tonight. With Lauro's ailing foot lots better he will have more power in his drives. Roberts is anxious to show the fans that he has not lost his cunning.

The Monessen attack is centered around the fullback, Joe Maskas, and the quarterback, Mike Rodash. The veterans on the line who faced New Castle last year are Furio, a guard, Castiglia a tackle and McKoskey a guard, and a lad who made All- W.P. I. A. L. last year. The Monessen team will outweigh the locals several pounds. Along with their weight they are mighty fast and tricky, according to those who have seen them in action.

Too Far For Fans

It is not believed that the New Castle delegation will be much over a couple of hundred tonight. The distance is going to keep a lot of fans at home—it is 81 miles to Monessen and for a night game that is quite a distance. It is unfortunate, too, but it can't be helped. The fans have just not warmed up to the Monessen-New Castle game owing to the distance. The game was originally set for Saturday afternoon, but was moved back to tonight. A Saturday game would have given them a bigger New Castle rooting section.

What will you ask for?

First you'll want style. Smooth flowing shoulders, flared skirt, slash pockets, the typical English Model in a smart color, fabric and pattern.

Next you'll want comfort. The new type of deep armhole that you can slip into as easily as a raglan. You'll want a wider skirt, roominess about the shoulders, a nonchalant drape for ease in walking, sitting or driving a car.

Lastly you'll want good wearing quality and fineness of texture.

Irish Favored To Defeat Army In Battle Saturday

Do Not Believe That Beaten Army Team Can Stop Undefeated Notre Dame Eleven

CARVER FAVORS LOUISIANA STATE

By LAWTON CARVER
International News Service Sports Editor

NEW YORK, Nov. 3.—Headed by the tradition-garnished Army-Notre Dame battle which will attract 75,000 to Yankee Stadium, tomorrow's football schedule is replete with renewal of so-called ancient rivalries, with encounters that will more clearly establish candidates for the various post-season games and with the customary potential upsets. As to the latter phase of the day's proceedings, nothing could be more astounding than defeat of the Irish by the Cadets, accordance to a consensus of experts and the figures on past performances.

The game's appeal rests largely on the tremendous color of the spectable it has become and in the rivalry of it all. This thing has been going on with but one break ever since 1913. Notre Dame has won 18, tied two and lost five to the extreme delight of its multitude of alumni-actual and volunteer.

Briefly, we like Notre Dame by one touchdown.

Picks Louisiana

And here is one that may look silly by tomorrow night: We like Louisiana State over Tennessee, which risks a perfect record against the big bayou Tiger's four wins and one defeat—the latter in the opening game of the season.

Notre Dame and Tennessee are among the nation's eight major unbeaten and untied teams. The others, named first in each instance, figure to fare as follows:

Oregon State to lose to Southern California, which is rated as the best team on the coast, despite an opening game tie; Texas A. and M. to hand Arkansas another defeat; Michigan to down Illinois; Cornell to win handily from Columbia; Kentucky to take Alabama and Duquesne to nose through against Marquette in a game today.

Pitt Over Temple

We also like Dartmouth over Yale, Pittsburgh over Temple, Penn over Navy, Fordham over Rice, Princeton over Harvard, Boston College over Auburn, New York University over LaFayette, and Syracuse over Michigan State.

In the mid-west, Northwestern should click to a victory over Minnesota, and Ohio State over Indiana, Purdue over Iowa, Nebraska over Missouri, and Oklahoma over Iowa State may or may not come through. Villanova and Detroit rate as a tossup—a deadlock.

Tech Over Duke

Down south, Mississippi should take Vanderbilt, Georgia Tech probably will upset Duke, Georgia figures over Florida, Clemson ought to upset George Washington in a tilt today and North Carolina figures to have little trouble with North Carolina State. Texas Christian has an edge over Baylor and the same goes for Southern Methodist against Texas.

In conclusion, it ought to be Utah over Colorado, U.C.L.A. over California, Santa Clara over Stanford and Washington State over Oregon.

DODGER PITCHER TO UNDERGO OPERATION

(International News Service)

BALTIMORE, Md., Nov. 3—The future baseball career of Whitlin Wyatt, star Brooklyn Dodgers pitchers, hung in the balance today as surgeons at Johns Hopkins hospital prepared to perform a cartilage operation on his injured left knee.

Wyatt hurt his knee on May 21 at Cincinnati while covering first base on Lonnie Frey's bunt. He continued to play until the injury became so aggravated he was forced to retire for the season after pitching the night game against the Reds in Brooklyn on July 19.

Moran To Cease Heavy Training

Delarado And Secrete Meet In "Parade Of Champs" Here

ANDY WERTZ TO BOX OSCAR WRIGHT

Frankie Moran has only a few more days to reach condition for his return bout with Billy Murray, Cecil flash, in The Arena. They are scheduled to clash in a three-round battle Monday night.

Moran has been training vigorously but after Saturday afternoon will eliminate boxing because he might sustain a broken knuckle or some other injury. From then on he will do only light training.

This featherweight scrap and the 175-pound clash between Nick La Volpe, Youngstown, and Benny Bartle, Ellwood City, will be features of the Parade of Champions and near-champs in The Arena.

While a local flavor was removed when Mick Rubin disqualified himself for amateur competition, the fact remains that both La Volpe and Bartle hold decisions over Rubin.

Well Known Amateurs

Al Turner, senior 175-pound champion of Pittsburgh, will meet Milt Taylor of Cecil, who defeated Bartle twice. If this bout turns out as expected there will be plenty of punches unleashed.

Del Delarado is accredited with having landed the cleanest knockout since the amateur game revived boxing here. He is from East Liverpool but holds the West Virginia 147-pound crown.

Sammy Secrete, senior welterweight champion of Pittsburgh, who beat Johnny Como, Meadville, in a garrison or last round rally, will battle Del. This bout promises action.

Other bouts arranged follow:

Andy Wertz, Golden Glove 147-pound champion, of Youngstown, vs. Oscar Wright of Pittsburgh.

Pete Spotti of Cecil, who lost a decision to Smokey Robinson, vs. Jimmy Happer, runner-up to the Pittsburgh 1937 lightweight champion.

Larry Retardo of Ellwood City vs. Julius Alt of Cecil at 120 pounds.

Pete Pope, Youngstown, vs. Al Dundee of Cecil at 112 pounds.

Sports World Ramblings

Calling 'em from a limb: Perched on an unusually lean limb, in a position that would do justice to a swallow, a humming bird, a cardinal or some of the other professional pole sitters, we're set to call the turn on tomorrow's gaudy gridiron carnival, that is, if someone doesn't saw off the limb before we even start.

Pittsburgh's lone undefeated and untied entry, Duquesne, plays host to Marquette. So far the Milwaukeeans have shown signs of being a mediocre club. Those lads from the Bluff are coming up and figure to maintain their perfect slate . . . Despite lack of reserves, which has cost the Panther a clean slate, Pitt should have just enough to halt Temple University.

At New Wilmington, Westminster's Titans, still smarting from last week's loss to Thiel, is expected to rebound with a victory over Edinboro Teacners . . . Those gallant sons of Slippery Rock are rolling smoothly and should add Thiel to the untarnished slate . . . Geneva College gets the vote over Lock Haven, with Grove City a whisker better than California Teachers.

In the Big Ten a set of gruelling games are on tap. Northwestern is on the upgrade, so is Minnesota. The Gophers get this corner's vote. With Ollie Hahnenstein and Don Guritz out of the lineup, I doubt if the Wildcats can cope with the Gophers . . . Chicago, the punching bag of the loop, goes down to Virginia and should enjoy an afternoon of warm sunshine and southern hospitality.

Fifteen years ago, almost to the day, Illinois annihilated Michigan. A guy bearing the numeral 77, who was christened "Red" Grange, carried the ball six times in the first 10 minutes and scored four touchdowns. The Wolverine alumni has not forgotten that. Tom Harmon, they claim, is every bit as good as Grange. Illinois may know how Michigan felt 15 years ago. The Wolverines still are undefeated and untied.

Ohio States must concentrate on stopping Hal Hursh, the most effective passer in the circuit. Schmidt's lad will take care of the assignment I believe, and should dispose of Indiana . . . Back home following a tough clash and a long train ride, Purdue's Boilermakers are not in too good physical condition to face Iowa. This guy Nile Kinnick is a pip for the Iowans. An extremely quiet vote for Purdue.

In one of the toppers of the day, Tennessee, in good condition following their struggle with poor little Mercer, stacks up against Louisiana State. The Vols must stop Ken Kavanaugh, the string bean end, to move along undefeated and untied. Tennessee has a bit too much . . . Holy Cross should annex a victory over Providence . . . Manhattan has the upper hand over Boston U.

Inspired by their conquest of Ohio State, Cornell ranks as one of the most formidable clubs in the land. Columbia can't quite match the versatility of the Itahacans . . . Fordham, rolling again, gets a crack at Rice's gang of prima donnas. The Rams should pin another loss on the Owls . . . New York U. one of the best in the east, to dump a fairly strong Lafayette machine.

Navy bucks up against another tough customer, Penn. The Quakers have found their bearings and should sink the Middies . . . Penn State's Nittany Lions draw the ring over Maryland . . . Rutgers birthday present to Coach Harvey Harmon will be a triumph over New Hampshire and a clean slate to date . . . In one of those close affairs, Syracuse an edge over Michigan State.

Notre Dame is overdue. The Irish figure to break loose on a scoring spree one of these days. Tomorrow looks like the day. All those stories about Saggau, etc., are of the bear variety . . . Villanova gave proof of strength in kayoing Arkansas. Detroit's line is too weak to cope with the Villanova attack . . . Boston College gets the nod over Auburn. The tiff shapes up as a gruelling affair . . . Brown gets back on the winning side, facing Tufts . . . Bucknell over Western Maryland with ease.

Catholic U., among the undefeated and untied, has enoubh to sidetrack Tulsa . . . Yale has finally found itself. Dartmouth to add another triumph to its list . . . Georgetown is much more talented than a disappointing West Virginia eleven . . . With Dave Allerdice on the firing line, Princeton over Harvard . . . Western Reserve a slight edge over Ohio Wesleyan.

There's an odor of roses in that Oregon State-Southern California game. Lon Stiner's Staters, undefeated and untied, lineup against a real ball club for a change and figure to be on the short end when it's all over. The winner to get the Bowl bid . . . Alabama, playing on home soil, should repel an hitherto undefeated Kentucky team. It will be close with an upset possible.

Here comes a guy with a saw so let's skip over the rest of the field: Texas Christian a wavering vote over Baylor . . . Arizona over Centenary . . . Clemson over George Washington . . . Duke over Georgia Tech . . . Furman over V. P. I. . . . Georgia over Mercer . . . Kansas State to spill Kansas . . . Mississippi to bowl over Vanderbilt . . . Miss. State with ease over Birm.-Southern.

Nebraska a bit more than Missouri . . . Oklahoma to mow down Iowa State . . . North Carolina to smother N. Carolina State . . . Oregon over Wash. State . . . Richmond the nod over V. M. I. . . . St. Mary's over Dayton . . . Santa Clara a nod over Stanford . . . S. M. U. the edge over Texas in a close one . . . Texas A. & M. to continue undefeated and untied in its clash with Arkansas . . . U. C. L. A. to toss back California, Wake Forest a winner over Marshall, Washington to thrust back Montana and New Castle to triumph over Monessen.

Bears-Indians To Play Sunday

Business Manager Willie Domenick will take his Wabash Bears, semi-pro championship football team to Aliquippa on Sunday to meet the strong Aliquippa Indians at 2:30 o'clock at the Aliquippa high school field.

The Bears hope to be able to upset the valley champions. Coaches Adamo and Toscano have worked the team hard all week in preparation for the battle that they expect will come Sunday at the valley gridiron.

The Bears have gone undefeated so far and are the class of this section. Manager Domenick is trying to schedule a fast team here for Sunday, November 12.

Westminster To Play Edinboro Saturday

The sixth game of the season for the Westminster Titans against Edinboro State Teachers college, in New Wilmington, Saturday afternoon, headlines this week's college activities.

Last year, Westminster took the long end of a 26-6 win against Edinboro. Hungry for touchdowns, after being blanked by both Geneva and Thiel, the Titans are scheduled to open up their offensive-scoring guns.

A considerably revamped line will be seen Saturday, with Ossoff, Oil City freshman, starting at one wing position; Leonard, substitute lineman, starting at one of the tackles; and Brinkley who has played end during the entire season, will be shifted to a guard position. Other starting linemen will be Ruelle Youkers, DePaulis and Washabaugh.

In the backfield, Shoup or Evanoff will start at quarter; Edwards and either Valicenti or Newton, at half-back posts; and Laposki at full.

The game will be broadcast over WKST.

ALL-WINTER RADIATOR PROTECTION FOR ONLY $1.50?

HERE'S THE WAY many car owners do it every year! They put in a couple of quarts of Du Pont "Zerone" early in the season for protection against rusting and sudden cold snaps.

When it gets really cold, they add enough "Zerone" for lower temperatures. A total of six quarts, put in as needed, can protect a car with an average size cooling system (15 quarts) for the entire winter. And six quarts of "Zerone" cost only $1.50!

You may need a little more or less, depending on the condition and capacity of your car radiator and the severity of winter in your neighborhood. But the efficiency of "Zerone" will save you real money.

"Zerone" prevents rust and corrosion, gives better dissipation of engine heat, avoids power losses. And remember, it's only $1.00 a gallon, 25¢ a quart.

Money To Loan

Can you set aside $1.59 to $1.65 per week for a $100 LOAN

That's actually all you need to pay off in full a $100 cash loan including all charges on a 18 month plan at Personal Finance Co. And we take no wage assignment.

● $1.59 a week on the average is all you need to set aside for every $100 borrowed on Personal's new "Special" loan plan of only 2½% per month on the first $100 and 2% per month on balances over $100. This plan is for persons with a steady income or salary sufficient to meet payments promptly and a good credit record.

● For persons without established credit and employment ratings, or who wish to carry a loan larger than 8 to 12% of annual salary or income, Personal offers its "Regular" loan at 3% monthly on unpaid balances of 100 and less, and 2% monthly on unpaid balances over $100. Under this plan, setting aside just $1.65 a week will repay everything on a $100 loan in 18 months. Loans from $20 to $300.

Ellwood High Defeats New Brighton High 21-0 Thursday Night

ELLWOOD CITY, Nov. 3.—Any hope New Brighton high school football team and their supporters had of upsetting the title bent Ellwood Wolverines soared in the first half, faded in the third quarter and was buried in the last period when the Blue and White Ellwood high powerhoused the Oak Hillers to a 21-0 shellacking last night at Reeves stadium, College Hill. By winning, the Ellwood lads extended their winning streak to six victories and advanced another notch on the Beaver Valley championship ladder.

For a decade at least, Beaver Valley teams have all practically defeated Ellwood at will and now that Ellwood has decisively "turned the tables" and accomplished that feat themselves for two successive years, the valley schools are beginning to sit up and take notice and are regarding the Ellwood machine with respect and admiration.

Large Crowd With Team

A large crowd of proud Ellwood Ellwood fans accompanied the team despite the penetrating chill and fog of the evening and they were more than ever convinced that the Ellwood team is a great one, when they display the fight they did in the last two periods.

Reino scored the first tally for Ellwood and the other two were added by Greco, who subs for Reino, and Fray, a reserve center.

In the first quarter it looked as though the game might turn into a dreary scoreless affair. After an exchange of punts, Mazzant, Reino, Murphy and Biego, making four first downs, took the ball 44 yards toward their goal post with the biggest gains being made around the ends. Ellwood fumbled to their disadvantage a number of times during the game and the first came when they had a first down on the New Brighton 13, when Murphy fumbled a low pass from center with Zangus making the recovery. The Crimson kicked the ball out of danger land and the scoring threat ended. Pishioneri, Ellwood's most valuable center, played a terrific game and was injured a number of times.

The valley lads dominated the play in the second period and only the misfortune of having the half end as they had the ball only a half-yard from the final tally probably saved the Blue and White from being scored upon. A big thrill for all spectators came early in the second period when Baker took a reverse from Thull and pushing tacklers out of his reach with ease raced down the sidelines for 62 yards, the longest run of the game, before being hauled down by Lanzi. As he ran, he seemed a little uncertain and kept looking back and had he not done this, he undoubtedly would have scored.

After this notable feat, the Gibson boys lost the ball on downs and Ellwood took the ball on their own 9. Murphy, Reino and Biego by smashing the line and circling the ends advanced the ball to their own 44. Ellwood was penalized for too much time out and their only passing attempt of the game was incomplete. Reino was back to punt, the pass from center was wide and Klear tackled Reino for a 10-yard loss. At this point the locals' pass defense, a remarkable feat this year, bogged and Jackson threw three passed to Thull and Sentak, good for 30 yards. Baker went around the end for three yards and the ball was on the one-half yard marker. Thull hit the line but was stopped by all Ellwood and the half ended.

Second Half

Ellwood came back with their old zip after the half and in short order had their first tally. A fumble by Baker of New Brighton, recovered by Tanner for Ellwood on the New Brighton 28, set the stage. Biego hit right tackle for five yards, Reino was around right end for 17 more and Mazzant added another yard by hitting the line. Dragging a hoard of desperate New Brighton tacklers with him, Reino again made his way with perfect interference around right end and six points. Murphy kicked the extra point.

A poor Ellwood punt, only nine yards, put the New Brighton boys in a good position to score late in the third period, but this time Biggins intercepted a New Brighton pass and the teams were even.

A long punt by Mazzant set the stage for the second Ellwood tally early in the final period, placing the ball on Brighton's 6. Unable to gain Brighton returned the punt with Greco taking it on the 40 and returning it to the Brighton 29. A reverse, the only Ellwood deviation from straight football in the entire game, from Greco to Biego was good for nine yards and Mazzant picked up six more on a fake reverse. Greco went through the line for 12 yards and in the next play carried the ball over. Jackson made all the tackles for Brighton in these downfield plays. Murphy added the extra point and Ellwood was out in front 14-0.

Reserves In Action

The Ellwood second team and reserve were sent into action and eager to display their wares staged a downfield march that was a distinct credit. Cipro was especially good for Ellwood and gained 29 yards in two plays going around left end, which seemed weakly defended. The Croft men took the ball from their 36 to the Brighton 7-yard marker and then were given a five-yard penalty for too many times out.

Cipro fumbled a high pass from Fray, substitute center, and Klear recovered for New Brighton and Ellwood fans saw another touchdown chance fade. But in the next play, cheers rang out across the valley, as Fray valiantly redeemed the fumble by intercepting a Brighton pass and ran 25 yards unmoletsed to score standing up. Mastrangol added the extra point by a line plunge and the game ended.

Biggins, Lanzi and Fera were especially good in Ellwood's line and as usual the entire backfield, including Cartwright, the blocking quarter, whose praises often go unsung, were everyone "tops."

Sentak, Alleman and Mentz were best in the loser's line and Thull and Jackson carried the backfield load in an admirable manner.

The Ellwood band accompanied the team and their performance at the half adding enjoyment to the evening.

On Armistice Day Ellwood will conclude their season by being hosts to Beaver Falls at Lincoln field and it will also mark the final appearance of the majority of the Ellwood team.

Hospital Drive Makes Progress

Goal Of $8,000 Is Expected To Be Reached Through Membership Campaign

ELLWOOD CITY, Nov. 3.—The Ellwood City Hospital association is urging that every citizen in this community who possibly can, to take out a membership in the hospital.

A membership is only $10 and entitles the member to a voice in the control of the local hospital and also gives a voting right to elect members to the board of directors. The membership taken out this year will be good from Nov. 1, 1939, to May 31, 1941. The reason for the extension of time for the membership is to change the date of renewal at a time when no other financial drives are on.

The community is going to be faced with the problem of helping to maintain the greatest institution that this community has or ever will have each year and we should all be happy that we are able to play a small part in its functioning.

Eight thousand dollars is the goal to be reached this year and the entire sum is needed to carry on efficient work at the local hospital. New beds, laundry equipment and other equipment that is in need of repairs will also have to come out of the goal that has been set.

Renewals or new memberships may be sent in to the Chamber of Commerce which is handling the hospital campaign again this year.

Latest hospital memberships—Dale R. Mason, E. H. Evans, Mrs. E. H. Evans, Carl C. Davidson, A. E. Conner, Paul Conner (new), and E. Ralph Conner.

Legion Auxiliary Membership Plea Made By Chairman

ELLWOOD CITY, Nov. 3.—Mrs. E. J. Wolman, membership chairman of the American Legion Auxiliary, makes the following pleas for membership:

"November being with us again, brings with it beautiful, colorful scenery to the hillsides, Thanksgiving to our fireside and membership to the American Legion Auxiliary.

Every member is urged to put forth every effort possible to surpass its unit membership quota of last year, and receive another national citation. Pennsylvania is the largest department in the national organization, and it is the efforts, work and loyalty of every member that has made it so.

With the world in its present state of uneasiness, how could we do more for peace in America, than by getting into our patriotic organization, every eligible woman. In numbers there is strength, in unity safety. We the women of the American Legion Auxiliary will unite to urge 'Peace, peace, not at any price, but within reason'.

A house is no stronger than its foundation, an organization, likewise, is no stronger than its membership.

Join to keep patriotism and Americanism alive in the minds of our youth and to serve our country through national defense and legislative programs."

American Education Week Being Marked By School System

General Theme Presented This Morning By High School Principal, Ralph Shaffer

ELLWOOD CITY, Nov. 3.—Beginning this morning the first talk was given over the public address system of the Lincoln school in observance of American Education week.

Ralph C. Shaffer, high school principal, presented the general theme, "Education for the American Way of Life". The theme and speaker of each day next week is announced by Superintendent J. Ellis Bell, as follows:

Monday, "The Place of Religion in Democracy"—Rev. A. M. Stevenson.

Monday, "Education in Self-Relization"—Gerald Newton.

Tuesday, "Education for Human Relationship"—Arthur D. Webster.

Wednesday, "Education for Economic Efficiency"—R. J. Hawke.

Thursday, "Education for Civic Responsibility"—Miss Grace Brown.

Friday morning, "Cultivating the Love of Learning"—Miss Margaret Carey.

Friday afternoon, "Education for Freedom"—to be conducted by the local American Legion Post.

The American Education Week was founded in 1921 and has been an important movement since that time. It was conceived by the American Legion following a revelation of the high percentage of illiteracy disclosed by the draft of American soldiers.

It has also been designed as "visit your school" week and parents and friends of the students are especially invited to visit any of the city's schools during that period.

ELLWOOD PERSONALS

Mrs. Bernice Bell, of Glen avenue, has gone to Harrisburg, where she has received an appointment in one of the state departments.

It was erroneously stated in this paper recently that Miss Betty Boots, of the Zelienople road, a teacher of the North Star school, was confined to her home by an attack of scarlet fever. The school is closed this week for fumigation and the regrettable error was unintentionally made by a misinformed member of the board. Miss Boots has been ill but has now recovered.
